Foothill Transit

GOVERNING BOARD MEETING

West Covina, CA
Friday, August 28, 2020

Foothill Transit

Foothill Transit MISSION

To be the premier public transit provider committed to:

SAFETY

COURTESY

QUALITY

RESPONSIVENESS

EFFICIENCY

INNOVATION

Foothill Transit VALUES

SAFETY

We educate, encourage, and endorse a strong culture of safety at all levels of the organization, valuing the responsibility entrusted in us by the communities that we serve.

RESULTS

We value the achievement of organizational goals and initiatives as defined in our business plan and involving all levels of the organization.

INTEGRITY

We are committed to high ethical standards based on accountability, honesty, respect, transparency, and a high level of fiscal responsibility.

GRATITUDE

We are a team united in thankfulness for each other; we express gratitude for our many opportunities by investing our time and energy in our community and industry, and through the open expression of appreciation.

DIVERSITY

We create an environment rich with talented people and differing viewpoints, valuing the unique perspectives that everyone brings.

TEAM MEMBERS

Our team members are the key to Foothill Transit's success and we are committed to supporting them through education, development, and recognition.

COMMUNICATION

We value and are committed to open honest respectful discussion which is responsive, informative, and constructive.

SUSTAINABILITY

We embrace sustainability because it benefits all aspects of our business while helping our communities by protecting the environment through measured and responsible stewardship of resources.

Foothill Transit

Recommended Action: Receive and file the August 2020 Legislative Summary.

11. EXECUTIVE DIRECTOR COMMENT

12. GOVERNING BOARD MEMBER COMMENT

13. ADJOURNMENT

**The next meeting of the Governing Board
is scheduled for
Friday, September 25, 2020**

Foothill Transit

**STATEMENT OF PROCEEDINGS FOR THE
REGULAR MEETING OF THE
FOOTHILL TRANSIT GOVERNING BOARD
TELECONFERENCE VIA ZOOM**

**FOOTHILL TRANSIT ADMINISTRATIVE OFFICE
2ND FLOOR BOARD ROOM
100 S. VINCENT AVENUE
WEST COVINA, CALIFORNIA 91790**

**Friday, July 24, 2020
7:45 a.m.**

1. CALL TO ORDER

The meeting was called to order by Chair Sternquist at 7:53 a.m.

2. PLEDGE OF ALLEGIANCE

The Pledge of Allegiance was led by Chair Sternquist.

3. ROLL CALL

Roll call was taken by Christina Lopez, Board Secretary.

Present: Member Corey Calaycay, Member Rick Crosby, Member Robert Torres, Member Emmett Badar, Member Andrew Rodriguez, Member Jorge Marquez, Member Gary Boyer, Member Albert Ambriz, Member Dario Castellanos, Member Roger Chandler, Member Richard Barakat, Member Tzeitel Paras-Caracci, Member Becky Shevlin, Member Margaret McAustin, Member Fernando Vizcarra, Member Steve Tye, Member Jessica Ancona, Member Cory Moss, Member Hector Delgado, Member Sam Pedroza, Member Jimmy Lin, Member Cynthia Sternquist

Absent: Member Paul Hernandez, Member Edward Alvarez, Member Valerie Munoz

4. REVIEW & APPROVAL OF THE MINUTES

Approval of the minutes for the Joint Meeting – Annual Governing Board and Executive Board of June 26, 2020.

Motion by Vice Chair Calaycay, second by Member Shevlin, the minutes for the Regular Meeting of June 26, 2020 were approved. Motion carried 22-0.

5. APPROVAL OF AGENDA

After discussion, by Common Consent, and there being no objection, the Board approved the agenda as presented.

6. PUBLIC COMMENT

Erika Mazza, Keolis Vice President – West, addressed the Governing Board. She acknowledged the strong working relationship and partnership between the Keolis and Foothill Transit teams. She shared that the Keolis team has shared with the Foothill Transit team strategic opportunities and shared practices from across the world.

Brian Otchis, Keolis General Manager – Pomona, addressed the Governing Board. He shared that he appreciates the exchange of ideas between the Keolis, Transdev, and Foothill Transit teams during these difficult times. He thanked the Governing Board for their support.

6.1. Executive Director Response to Public Comment

Doran Barnes, Executive Director, expressed his thanks to the Keolis team.

CONSENT CALENDAR

7. MAY 2020 FINANCIAL STATEMENTS AND INVESTMENT SUMMARY

Recommendation: Receive and file the Financial Statements and Investment Summary year-to-date report through May 31, 2020.

Motion by Vice Chair Calaycay, second by Member Shevlin, to receive and file. Motion carried 22-0.

REGULAR AGENDA

8. COVID-19 TRANSIT OPERATIONS UPDATE

Recommendation: Receive and file an update on Foothill Transit operations during the COVID-19 pandemic and Los Angeles County Safer-At-Home order.

LaShawn King Gillespie, Director of Customer Service and Operations, and Felicia Friesema, Director of Marketing and Communications, presented this

item.

Ms. Gillespie reported on transit operations during the COVID-19 pandemic. She reported on the impact of COVID-19 on service levels. Local service levels have been maintained and on June 8th, express service resumed. She provided an update on service change considerations, Transit Store operations, and reported that operator barrier installations are scheduled to begin in August 2020.

Ms. Friesema provided an overview and update on communications during the COVID-19 pandemic. She stated that the Marketing and Communications team is continuously working to keep customers and the community informed of service impacts, agency initiatives, and health advisories. She also reported that all of Foothill Transit's pandemic response information can be found at foothilltransit.org/covid.

Received and filed.

9. **MT. SAN ANTONIO COLLEGE TRANSIT CENTER PROJECT UPDATE**

Recommendation: Receive and file the report on Mount San Antonio College (Mt. SAC) Transit Center Project Update.

Sharlane Bailey, Director of Facilities, presented this item.

Ms. Bailey presented an overview of the project history and timeline. The Transit Center will consist of ten bus bays, five canopy shelters, a pedestrian bridge, and infrastructure for electric buses. Upcoming milestones include anticipated approval by the City of Walnut in September 2020, commencement of construction of the Transit Center in February 2021, and completion of Transit Center construction in fall 2022.

Received and filed.

10. **WEBSITE REDESIGN UPDATE**

Recommendation: Receive and file the Website Redesign Update.

Felicia Friesema, Director of Marketing and Communications, presented this item.

Ms. Friesema reported that the website redesign project began in February 2019. The redesigned website was scheduled to originally launch in June

2020, but work on the website was postponed until later this fall due to the COVID-19 pandemic.

The new website will follow a new intuitive design originally launched by both Google and Apple for their on-campus transit systems. The new website will also function much like a mobile app. The new website will be unveiled at the end of the year.

Received and filed.

11. **COMPREHENSIVE OPERATIONAL ANALYSIS OVERVIEW**

Recommendation: Receive and file this report on the Comprehensive Operational Analysis (COA) Overview.

Joseph Raquel, Director of Planning, presented this item.

Mr. Raquel presented an overview of Foothill Transit's upcoming Comprehensive Operation Analysis. He reported that Foothill Transit was awarded a Sustainable Transportation Planning Grant for the COA. Mr. Raquel provided a brief description of what a COA study consists of. He highlighted some of results of the last COA that was conducted in 2016.

Next steps include refining the scope of work and completing the procurement. Frequent updates will be presented to the Governing Board.

Received and filed.

12. **EXECUTIVE DIRECTOR COMMENT**

Comments by Mr. Doran J. Barnes, Executive Director, Foothill Transit.

Mr. Barnes reported the following:

- Staff continues to advance a variety projects.
- In August the FY2021 Business Plan and Budget will presented for adoption.
- Requested that the meeting be adjourned in the memory of Miguel Chavez, Mechanic, Transdev Technician Arcadia/Irwindale Operations and Maintenance Facility; John Luddon, Transdev Southwest Regional Maintenance Director; and Michael De La Torre, former Foothill Transit Governing Board Member.

13. **BOARD MEMBER COMMENT**

Comments by Members of the Foothill Transit Governing Board.

- Member Lin asked what is the status of Foothill Transit's financial position. Mr. Barnes responded that no challenges are anticipated with the FY2021 budget. FY2022 will depend on the economy and available funding at the state and federal level.
- Member Tye stated he appreciated Mr. Barnes and the team's leadership. He also wanted to thank the coach operators.
- Member Pedroza stated he boarded a bus recently and he appreciated the safeguards taken by customers and the coach operator, and it felt really safe. He also asked staff to research how to fund Foothill Transit if there are no fares. Joe Raquel, Director of Planning, stated that the fare component will be part of the COA study.

14. **ADJOURNMENT**

Adjournment for the July 24, 2020 Foothill Transit Governing Board Meeting.

There being no further business, the Foothill Transit Governing Board meeting adjourned in the memory of John Luddon, Miguel Chavez, and Michael De La Torre at 9:04 a.m.

August 28, 2020

To: Governing Board

Subject: **June 2020 Financial Statements and Investment Summary**

Recommendation

Receive and file the Financial Statements and Investment Summary year-to-date report through June 30, 2020.

The attached Financial Statements and Investment Report summarize Foothill Transit's unaudited operations and financial condition as of June 30, 2020, for the fiscal year ending June 30, 2020.

Balance Sheet Analysis (Attachment A):

Assets

The balance sheet, as of June 30, 2020, shows total assets at \$344.2 million. This total consists primarily of \$225.07 million in fixed assets, \$108.51 million in cash and investments and \$10.01 million in receivable and prepaid assets. Foothill Transit's cash position of \$107.52 million is \$10.29 million more than the previous month, and is \$39.17 million more than last year in June.

Liabilities

The accounts payable balance is \$14.90 million. Accounts Payables include operation and maintenance expenses for \$10.18 million and \$0.77 million for fuel.

The deferred revenue of \$64.22 million represents funds that are reserved for planned capital expenditures, such as, upcoming bus procurements and transit center construction activities.

Investments (Attachment B)

Our current investments are held in financial instruments pursuant to Foothill Transit's investment policy. The cash and investments balance includes \$33.53 million in liquid accounts held with Bank of the West; \$12.51 million in interest bearing money market accounts with Bank of the West; \$68,000 with

Chase; \$1 million with US Treasury and \$61.41 million invested in the Local Agency Investment Fund (LAIF).

The current interest rates on all accounts are included on Attachment B. The LAIF investment, the CD investments, and the deposits with Chase earn interest and are held for future capital and operating funding requirements.

Operating and Capital Revenues and Expense Analysis (Attachment C)

June 2020 year-to-date fare revenues were \$11.93 million which is \$5,002,973 less than the budgeted amount and \$4,153,569 less than June 2019. As a result of the COVID-19 pandemic, Foothill Transit implemented rear door boarding effective March 19, 2020, on all buses to improve the safety of both the customers and the bus operators. Because there is no TAP equipment located at the rear door, fare collection was not possible. This public safety decision impacted total fare revenues and the farebox recovery ratio for FY2020.

Operating costs through June 2020 were \$97.98 million, which is \$5.44 million less than the budget and \$2.22 million more than June 2019. Of this \$97.98 million, \$76.66 million reflects operating costs for the Arcadia and Pomona operations contractors. Other operating expenses include fuel which was \$5.94 million through June 2020.

Capital expenditures through June were \$26.54 million compared with \$36.05 million last year at this time. The annual budget for capital expenditures includes the purchase of CNG buses and two Double Deck electric buses, construction for the Covina Park & Ride and Transit Center project and completion of the farebox refurbishment project.

Farebox Recovery Ratio

The June year-to-date farebox recovery ratio was 12.17 percent, which is 4.23 percent lower than the performance target of 16.4 percent. The farebox recovery ratio is calculated by dividing the total year-to-date fare revenue of \$11,926,027 by the total bus operating expense of \$97,979,559. This ratio is less than the June 2019 ratio of 16.79 percent.

Total Disbursements (Attachment D)

Total disbursements reflect invoices paid for the month of June 2020; they do not reflect the total expense incurred for the month. If an expense has been incurred but not yet invoiced or paid, Foothill Transit accrues the expense to properly track the expenses during the month in which they actually occurred. Total disbursements for June 2020 were \$8.77 million. Capital disbursements totaled \$0.39 million and other significant disbursements include \$3.43 million to Keolis and \$3.92 million to Transdev for bus operating services.

Sincerely,

Michelle Lopes Caldwell
Director of Finance and Treasurer

Doran J. Barnes
Executive Director

To: Governing Board

Subject: **Proposed Fiscal Year 2021 Business Plan and Budget**

Recommendation

In accordance with the Executive Board's recommendation, adopt Foothill Transit's proposed Business Plan, Budget, and Performance Targets for Fiscal Year 2021.

Analysis

The Business Plan and Budget development process provides an opportunity to review Foothill Transit's current and planned financial status as it pertains to the agency's goals and objectives. Foothill Transit was in the process of initial Business Plan and Budget development when the COVID-19 pandemic caused the agency to further examine its financial resources and adjust the plan accordingly. Subsequently, in June 2020 the Governing Board adopted a first quarter budget that allowed additional time to develop a more refined Business Plan and Budget for Fiscal Year 2021 that takes into consideration recovery and relief efforts of the COVID-19 pandemic. Presented for your consideration is a full year budget for fiscal year 2021. Included in the document are Fiscal Year 2020 accomplishments, a budget summary, and departmental budget summaries.

Despite the financial burden caused by the global pandemic, Foothill Transit has sufficient funding to provide a balanced budget. The federal CARES Act will provide critical funding to backfill the loss of fare revenue and sales tax revenue. The proposed budget will allow us to operate essentially the same number of service hours and miles in Fiscal Year 2021 that were provided in Fiscal Year 2020. Foothill Transit is required to submit a balanced budget and Short Range Transit Plan (SRTP) to the Los Angeles County Metropolitan Transportation Authority annually to be eligible to receive subsidy funds. Both documents have been incorporated into a single Business Plan and Budget document.

The Fiscal Year 2021 Business Plan and Budget document is provided in Attachment A. It was developed with the organization's mission as its central focus. The mission of Foothill Transit is to be the premier public transit provider committed to safety, courtesy, quality, responsiveness, efficiency and innovation. Supporting this mission, the primary goals of Foothill Transit are the following:

Governing Board Meeting - 08/28/2020
Proposed Fiscal Year 2021 Business Plan and Budget
Page 2

- Operate a safe transit system;
- Provide outstanding customer service;
- Operate an effective transit system; and
- Operate an efficient transit system.

Goals and performance measures tied to each of the four goals listed above, have been incorporated into the plan to ensure that Foothill Transit's resources are focused on achieving its mission. Please note that given the incredibly unique challenges of operating a transit system during a pandemic, many of the performance goals are dramatically different when compared to prior years. Please also note that much fiscal year 2021 will be focused on adapting as the circumstances of the pandemic change. This is certainly not a "business as usual" operating year.

In order to fulfill its mission and meet its goals, Foothill Transit's proposed Business Plan and Budget document includes detailed initiatives. Throughout fiscal year 2021, the proposed business plan will allow Foothill Transit to advance the key agency-wide initiatives as described in the Business Plan. Additionally, individual department initiatives are included in each department's subsection of the Business Plan document.

Capital Program

The Foothill Transit Financial Stability Policy adopted by the Board in 2016 and updated annually requires the capital program budget be integrated into the annual budget process. The capital budget includes all capital program activities associated with bus acquisition, bus capital improvements, facility construction, and other capital improvements such as information technology improvements. The Board approves a capital project as part of the annual budget adoption; it authorizes the schedule and total expenditures over the life of the project.

There were two new capital projects that were approved by the Governing Board in June. In addition to those two projects, there are fifteen newly proposed capital projects for FY2021. The newly proposed Life of Project budgets for capital projects in FY2021, including what was approved by the Governing Board in June total to \$35.44 million.

Revenues

The revenues proposed in this budget are sufficient to achieve the goals and objectives identified in the Business Plan and Budget. Revenue projections are based on the draft annual “funding marks” developed by Metro and include estimated funding allocations from Metro for Fiscal Year 2021. Included in the budgeted revenues are approved federal CARES Act funds in the amount of \$33 million.

Executive Board Recommendation

At their meeting on July 24, 2020, the Foothill Transit Executive Board reviewed the Business Plan and Budget. The Executive Board members discussed the document and had no recommended changes. Therefore, the Executive Board recommends that the Governing Board adopt the proposed Business Plan and Budget for Fiscal Year 2021.

Subsequent to the Governing Board’s adoption of the Foothill Transit 2021 Business Plan and Budget, the Foothill Transit Ten-Year Financial Forecast will be updated using the Governor of California’s Revised State Budget, final formula allocation procedure (FAP) funding marks received from the Los Angeles County Metropolitan Transportation Authority (Metro), and available local and statewide economic forecasts. It is expected that the funding marks will be less than prior years due to the economic impact of the COVID-19 pandemic. The updated Foothill Transit Ten-Year Financial Forecast is anticipated to be presented to the Board as an information item early in 2021.

Financial Impact

Foothill Transit’s proposed FY2021 budget is balanced between revenues and expenses with a proposed \$107.4 million operating budget and an \$89.4 million capital budget, for a total budget of \$196.8 million. Included in this \$196.8 million total budget are the already approved first quarter \$27.1 million operating and \$21.7 million capital budgets. The Fiscal Year 2021 Business Plan and Budget targets an adjusted farebox recovery ratio of 6.3 percent as the region recovers from the impacts of the pandemic.

Sincerely,

Michelle Lopes Caldwell
Director of Finance and Treasurer

Executive Summary

The COVID-19 global pandemic has fundamentally reshaped the heart of all shared, community driven mobility. This FY2021 Business Plan and Budget is a product of that reshaping and accommodates within an ever shifting financial and cultural landscape what challenges we can reasonably predict and adds flexibility for the ones we cannot. For the moment, this also means temporarily forgoing the pursuit of higher ridership in favor of community health needs that dictate continued physical distancing on board public transit, mandated mask wearing, and disinfection protocols. Ridership is expected to significantly decrease in FY2021. The FY2020 estimated numbers illustrate a significant negative impact due to the pandemic. This is separate from the overall ridership decline experienced by the Southern California region over the past four years.

In anticipation of a successful vaccine and an eventual safe return to denser commuting patterns, Foothill Transit is moving forward on key capital projects designed to improve the access to and experience of public transit in our region. Those projects include construction of the Mt. San Antonio College Transit Center; implementation of a hydrogen fuel cell powered sub-fleet; and new CNG bus procurements.

The Coronavirus Aid, Relief, and Economic Security (CARES) Act was passed by Congress and signed into law on March 27, 2020, and contained \$25 billion for public transit agencies throughout the United States. Foothill Transit will receive \$33 million of federal grant funds which can be used for impacts from COVID-19 experienced after January 20, 2020. Examples of eligible uses include operating expenses and COVID-19 related procurements. Foothill Transit has programmed these revenues to pay for FY2021 operating expenses as these revenues will replace sales tax revenues which are forecast to be negatively impacted by the pandemic.

The total agency-wide budget of \$196.8 million includes operating costs of \$107.4 million and a capital program of \$89.4 million. The major elements of the operating budget, purchased transportation and fuel and electricity, total \$88.3 million or 83 percent of the total operating budget. The capital program includes \$255.2 million of capital projects to be completed in the next five years. The majority of capital funding continues to be programmed for bus replacement as we transition to a fully zero emission bus fleet.

Foothill Transit's top priority is always safety, which now includes a higher level of attention to public health while maintaining safe access to our communities' work centers, hospitals, and other vital services. We are continuing to closely scrutinize customer response to the changing public health environment and responding with flexibility and care. We anticipate that this may mean reductions in trip frequencies or possible temporary rerouting as commuting patterns change in response to increased telework and telemedicine availability.

This is a year of change and uncertainty and maintaining flexibility as new information becomes available will be crucial in allowing us to meet the goals of our mission and collectively respond in a way that delivers the best program of service that best meets our communities' needs.

Foothill Transit Mission

To be the premier public transit provider committed to Safety, Courtesy, Quality, Responsiveness, Efficiency, and Innovation.

Values

ACCOUNTABILITY

We educate, encourage, and endorse a strong culture of safety at all levels of the organization, valuing the responsibility entrusted in us by the communities that we serve.

RESULTS

We value the achievement of organizational goals and initiatives as defined in our business plan and involving all levels of the organization.

INTEGRITY

We are committed to high ethical standards based on accountability, honesty, respect and transparency, and a high level of fiscal responsibility.

GRATITUDE

We are a team united in thankfulness for each other; we express gratitude for our many opportunities by investing our time and energy in our community and industry, and through the open expression of appreciation.

INCLUSION

We are committed to creating a culture that facilitates equal access to opportunity and promotes participation among our diverse and talented team members, valuing the unique perspectives that everyone brings.

TEAM MEMBERS

Our care for each other magnifies the care we provide to our communities, so we endeavor to practice compassion, embodying the best of our humanity to one another. We are also committed to supporting the team through education, development and recognition.

COMMUNICATION

We value and are committed to open, honest, and respectful discussion which is responsive, informative, and constructive.

SUSTAINABILITY

We embrace sustainability because it benefits all aspects of our business while helping our communities by protecting the environment through measured and responsible stewardship of resources.

Overall System Performance

This chart shows a comparison of Foothill Transit's overall system performance for FY2019, the projected performance for FY2020, and the targeted performance goals for FY2021.

	FY2019	FY2020	FY2020	FY2021
OVERALL SYSTEM PERFORMANCE	ACTUAL	TARGET	ESTIMATE	TARGET
Passenger Boardings	12,053,320	11,505,000	9,846,150	7,500,000
Vehicle Service Hours	859,528	874,826	851,412	864,817
Fare Revenue	\$ 16,079,596	\$ 16,929,000	\$ 12,388,610	\$ 6,750,000
Transit Operating Expense	\$ 95,762,466	\$ 103,069,030	\$ 101,104,602	\$ 106,925,420

GOAL	INDICATOR	FY2019 ACTUAL	FY2020 TARGET	FY2020 ESTIMATE	FY2021 TARGET
Operate a Safe Transit System	Preventable Collisions per 100,000 miles	0.80	0.80	0.83	0.80
Provide Outstanding Customer Service	Schedule Adherence	73.2%	75.0%	74.0%	75.0%
	Average Miles Between Technical Roadcalls	11,906	11,250	13,900	13,000
	Complaints per 100,000 Boardings	17.0	20.0	16.7	18.0
Operate an Effective Transit System	Boardings per Vehicle Service Hour	14.02	13.15	11.56	8.67
	Average Weekday Boardings	40,495	38,700	32,556	25,155
Operate an Efficient Transit System	Farebox Recovery Ratio	16.8%	16.4%	12.3%	6.3%
	Average Cost per Vehicle Service Hour	\$111.41	\$117.82	\$118.75	\$123.64

Agency History

Foothill Transit was created in 1988 as a unique joint powers authority following the Southern California Rapid Transit District (SCRTD) announcement of service cuts and fare increases that would negatively impact the San Gabriel Valley. The Los Angeles County Transportation Commission (LACTC) approved Foothill Transit's application to assume operation of 14 lines previously operated by SCRTD. Foothill Transit was tasked by community leaders to provide quality public transportation, while reducing costs and improving local control.

Foothill Transit service began in December 1988 with the operation of two fixed-route bus lines formerly operated by SCRTD - Lines 495 and 498. The remaining 12 lines approved by the LACTC were transferred to Foothill Transit operation over a period of five years. The new agency also assumed administration of the Bus Service Continuation Project and began providing service on an additional six lines that were cancelled by SCRTD. Foothill Transit performed an analysis of regional transit needs which resulted in changes to existing lines, increased weekday service, and introduced new weekend service and additional service to connect communities.

Foothill Transit now operates 39 fixed-route local and express lines, covering over 300 square miles in eastern Los Angeles County and provides approximately 13 million rides per year (pre-pandemic). This number is up from 9.5 million at the time of Foothill Transit's formation.

At its inception, Foothill Transit relied on contractor-provided operations facilities to maintain its growing fleet. Then in 1997, Foothill Transit opened its first agency-owned operations facility in Pomona. Construction was completed on the second agency-owned operations facility in Arcadia in 2002. In 2007, the administrative offices moved from leased property to the current address at 100 S. Vincent Ave. in West Covina. The purchase of the administrative building enabled the investment of capital dollars to offset ongoing operating costs associated with the lease of the previous office space. Foothill Transit began converting its diesel-fueled fleet to compressed natural gas in 2002. Fleet conversion was completed when the final diesel-fueled bus was retired in late 2013.

Agency growth continued in 2007 as Foothill Transit launched the region's first cross-valley, high occupancy bus service - the Silver Streak. Covering approximately 45 miles from Montclair to downtown Los Angeles, the Silver Streak route spends about five percent of its total trip time on surface streets by utilizing freeways and High Occupancy Toll (HOT) lanes for quick commuting between designated station stops, mimicking the efficiency and speed of light rail.

Continuing its commitment to adopt low emissions technology, the agency took a bold step in 2010 with the implementation of the first-of-its-kind, zero emissions battery electric buses. Funded through the American Recovery and Reinvestment Act of 2009 (ARRA), these vehicles were the first heavy duty zero emissions, battery electric public transit buses that utilized in-route fast charging capability. This technology enabled them to remain in service throughout the day without having to leave the route to be charged before returning to service. Foothill Transit

received a \$10.2 million TIGGER II grant in early 2011 to expand the electric bus program. This funding enabled the purchase of 12 additional electric vehicles for use on Line 291 serving the Pomona Transit Center. In July 2014, Line 291 became the first all-electric, zero emissions bus line in operation in Los Angeles County. In May 2016, Foothill Transit embarked on a bold new vision to fully electrify the bus fleet by 2030.

To best serve the organization and stakeholders, Foothill Transit began the transition to in-house management on June 15, 2013, by hiring its first full-time employee, Executive Director Doran J. Barnes. Doran had previously served as Executive Director since 2003 under a management contract with Veolia Transportation (later renamed to Transdev). At the direction of the Board, senior leadership and technical staff were hired and the management services contract with Transdev was amended, which resulted in management of Foothill Transit being brought in-house on July 1, 2013. Bus operations and maintenance, Transit Store operations, and bus stop installation, signage, and cleaning continue to be provided under contracts with private firms.

Foothill Transit began providing service to the first agency-owned parking structure, the Industry Park & Ride, on October 7, 2013, to provide more convenient and predictable commuting options for residents of the San Gabriel and Pomona Valleys. The structure houses 622 parking spaces and its construction allowed for the introduction of Line 495 - Foothill Transit's first and only commuter line to offer non-stop service into downtown Los Angeles.

Foothill Transit's second Park & Ride facility - the Azusa Intermodal Transit Center - opened in January 2016 in the City of Azusa. The structure is shared by the City of Azusa, the Gold Line Foothill Extension, and Foothill Transit. The Azusa Intermodal Transit Center, immediately adjacent to the parking structure includes infrastructure for electric bus charging to facilitate near term plans to fully electrify Line 280, which is a north-south route traveling between Azusa and the Puente Hills Mall.

In June 2016, Foothill Transit assumed operation of Lines 190, 194, and 270 from LA Metro - the largest service expansion in 14 years. Lines 190 and 194 provide service from El Monte to Pomona along corridors that were not previously served by other Foothill Transit lines. Additionally, Line 270 serves the cities of Monrovia and El Monte, while connecting passengers to the newly constructed Gold Line Station.

In February 2017, Foothill Transit achieved an important milestone in the agency's quest towards sustainability as it became the first bus-only public transit system in North America to attain the American Public Transportation Association's (APTA) Sustainability Commitment Platinum Level. APTA's recognition highlights the agency's effort in being responsible stewards of the resources that are entrusted to us, and our ability to develop and implement sustainable processes.

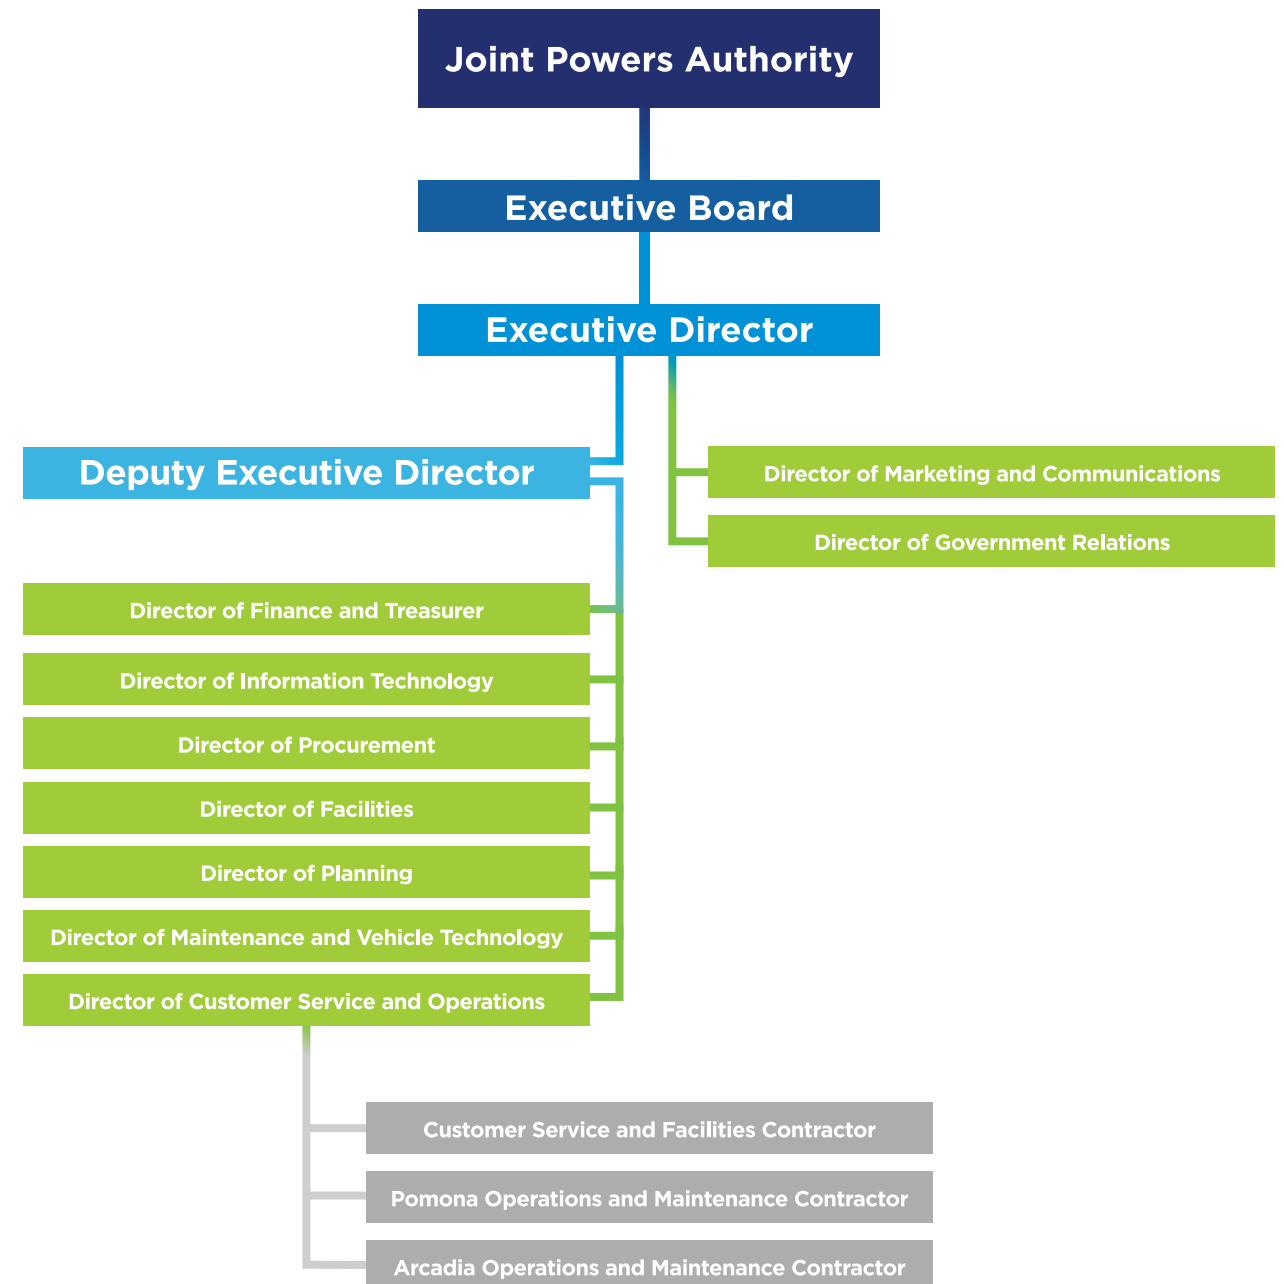

In 2020, after years of planning and cooperative efforts, Foothill Transit opened its second agency-owned park and ride and transit center near downtown Covina. The Covina Transit Center serves as the primary regional anchor for the agency's newest Commuter Express Line 490. Foothill Transit also began the year with record participation in its highly successful college Class Pass program with plans to add Cal Poly Pomona to the list of participating campuses in the fall. An on campus transit center at Mt. San Antonio College will bring unparalleled student access to transit to the school that started the Class Pass program in the first place. Both the Covina Transit Center opening and the Class Pass program were sidelined in April by the global COVID-19 pandemic, which was the direct cause of severe ridership declines. As our commuting and educational environment shifts in the face of a global pandemic, Foothill Transit is heading into the new fiscal year with heightened awareness, focus, and flexibility.

Organization Structure

General membership in the Foothill Transit Joint Powers Authority includes one city council member and one alternate from each of the 22 cities in the Foothill Transit service area and three appointed representatives for the County of Los Angeles.

A five-member Executive Board governs Foothill Transit: four elected officials representing four clusters of cities, and the fifth member is elected by the Los Angeles County representatives (Cluster Five).

The Board directs policy that is implemented by a directly employed administrative staff. On-street operations and front-line customer service are provided through contracts with Keolis Transit Services and Transdev.

Service Changes Proposed for the Next Three Years

This section includes information on service changes planned for FY2021 through FY2023.

Comprehensive Operational Analysis (COA)

Foothill Transit and the transit industry in general have been experiencing ridership declines over the last four years, and the decline has been compounded by the current COVID-19 pandemic. In light of this, a COA focused on meeting customers' unmet needs and improving overall efficiencies in the transit system is proposed. Foothill Transit's last COA was completed before the implementation of the Gold Line extension 2A from Pasadena to Azusa and included service options to improve connections to the rail line. The main goal of the planned COA will be to identify strategies to best address new travel patterns while improving the overall customer experience. These goals can be achieved by addressing unmet needs, providing better service frequencies, and implementing strategies to improve overall system speed. A good portion of this study will also focus on better meeting our current customers' needs while adhering to physical distancing requirements and providing a service delivery ramp up plan that can be implemented as these requirements are eased.

Line Productivity

The COVID-19 pandemic has greatly impacted ridership and as we enter the (coexist) phase where agencies must adhere to social distancing requirements, the need to provide efficient service is amplified. In response to this, our team will look at all lines and schedules to ensure routes are efficient, productive, and meeting essential transportation needs. We will apply the adopted Planning Service Standards, ensure service levels are as such to maintain proper social distancing, and recommend changes to improve productivity and bring lines closer to the adopted service standards. Some examples of these changes include adjusting frequencies of non-productive lines to increase frequencies on other lines that exceed the capacity limit and the possible introduction of separate Saturday and Sunday schedules to ensure appropriate levels of service are provided to customers on each of those days.

Creation of Frequent Transit Network

Frequent Transit Network Routes will be those Foothill Transit routes with the highest frequency. Route frequency will be informed by ridership and productivity. Lines 187, 188, 190, 194, 280, 291, 486, 488, and Silver Streak are Foothill Transit's most frequent and most productive lines. Each of these lines have market potential to support higher levels of service due to an appropriate mix of population, employment density, and connections to other local and regional services. Together, these routes create a grid of North/South and East/West connections that traverse the Foothill Transit service area along its most heavily travelled corridors. Market research has shown that 12 minute service or better offers enough convenience so that customers no longer need a schedule to plan their trips, thereby attracting more riders to the system. The frequent network is also key to enhancing the overall customer experience, with lower capacity limits on the buses due to social distancing mandates, customers will not have to wait long for the next bus.

One key to success for a Frequent Transit Network is ensuring that customers can rely on a consistently high level of service. Future plans include implementation of frequent transit

networks in other key corridors. The completion of the bus signal priority system along the route of Line 187 will also help system reliability; this same technology can be implemented along other major corridors in our service area.

Innovative Service Delivery

With the proliferation of Transportation Network Companies (TNCs) such as Uber, Via, and Lyft, Foothill Transit will look into possible partnerships to solve the first/last mile barrier which may be preventing people from using the transit system. Foothill Transit, in partnership with Metro, has implemented a Mobility on Demand (MOD) pilot program whereby customers within a two-mile radius of El Monte Station can utilize services provided by Via to get to and from the station. If the pilot is successful, it could serve as a model for other locations within the Foothill Transit service area to either replace low-productivity lines or provide coverage to areas where regular fixed route service would not be viable.

In addition, Foothill Transit will support and work with member cities that are interested in forming partnerships with TNCs to provide MOD or microtransit service within their cities.

Major Corridor Study

Based on ridership surveys administered by a Comprehensive Operational Analysis (COA) completed in 2016 and reports studying the decline in transit ridership, customers want to reach their destinations faster. Ridership studies also showed customers are averaging 11 miles per bus trip indicating they use the services for longer travels. During the upcoming fiscal year, Foothill Transit will work with Metro on a study to explore possible corridors within the service area that can support service similar to bus rapid transit or skip-stop service. Implementing these types of services along major corridors will improve overall travel times and get customers to their desired destinations faster.

Bus Signal Priority Expansion

As part of the effort to increase service speeds and reliability, Foothill Transit will work to expand its bus signal priority (BSP) network. BSP slightly adjusts signal light timing when a bus approaching the signal is running behind schedule to help get the bus back on schedule. The corridor along Colorado Boulevard and Huntington Boulevard is in the process of getting the equipment installed which will benefit Line 187 and the recently implemented Lines 860 and 861 servicing the City of Duarte. The planned expansion will include Amar Boulevard which will benefit Line 486 - the main line serving Mt. San Antonio College and Cal Poly Pomona. The expansion of the system will also help improve system efficiencies, keep the system on schedule, and improve the overall customer experience. This will also benefit customers unable to board buses due to new capacity limits caused by social distancing so customers will know when the next bus will arrive.

Gold Line Extension Phase 2B - Azusa to Pomona

The 2016 COA provided the framework for connections to the first Gold Line extension. With the second extension of the Gold Line currently in construction, Foothill Transit will look at connections to the new Gold Line stations in the cities of Glendora, San Dimas, La Verne, Pomona, Claremont, and Montclair. Foothill Transit will work with the cities in station design to ensure convenient bus-to-train interface. Similar to when the first Gold Line extension - Pasadena to Azusa - went into operation, Foothill Transit will make the necessary service adjustments to meet demand.

Service Changes CONTINUED

Inter-County Service Improvements

Both Orange County Transportation Authority (OCTA) and the Southern California Association of Governments (SCAG), on behalf of San Bernardino, have conducted studies looking specifically at inter-county travel between Los Angeles County and Orange or San Bernardino counties. Upon completion of the studies, Foothill Transit will work with each governing agency to identify at options to improve cross-county travel.

Major Capital Projects Proposed For the Next Three Years

This section includes information on capital projects for FY2019-2020 through FY2021-2022.

Bus Replacement

Foothill Transit will continue to replace the oldest coaches in its fleet. The 1600- and 1700-series buses, which were purchased in 2006 and 2009, respectively, will be over 12 years old and will have accumulated more than 500,000 miles in service. In addition, the CNG tanks on the 1600-series buses will expire in 2021. The 1600-series buses are 60-foot articulated coaches, and they will be replaced with new 60-foot articulated, compressed natural gas (CNG) buses at the end of 2020. Foothill Transit also plans to replace the 1700-series buses with hydrogen fuel cell buses.

Bus Fleet Heavy Maintenance

As the coaches accumulate 300,000 miles, they will undergo a heavy maintenance program that will include re-powering and transmission overhaul to provide more efficient and cost effective service. The heavy maintenance program mitigates mechanical bus failures, improves on-time performance, and reduces customer complaints. Approximately 90 buses will undergo heavy maintenance over two fiscal years, FY2021 and FY2022.

Hydrogen Fuel Cell Charging Station

In order to demonstrate 20 fuel cell buses in 2022, a hydrogen fueling facility will need to be constructed to accommodate 20 fuel cell buses. A consultant will be hired to assist in the development, design, and installation of the necessary facility upgrades. The fueling station will be completed by late 2021 prior to the delivery of the fuel cell buses in 2022.

Facility Rehabilitation, Repair and Maintenance

Arcadia HVAC and Roof Replacement

Replacement of the HVAC system including package air units and split system units original to the facility built in 2002 are scheduled in FY2021.

Pomona Steam Bay Lift Replacement

Both operation and maintenance facilities are equipped with a steam bay for undercarriage washing that uses a bus lift. The existing bus lift at Pomona is no longer in working order and is in need of replacement. The scope includes removal and disposal of the existing parallelogram lift and replacement with a new parallelogram lift for undercarriage steam cleaning.

Arcadia-Irwindale Bus Wash Retrofit & Steam Bay Lift

Foothill Transit is in the process of acquiring its first two double deck buses in 2020. This project will retrofit the existing Arcadia-Irwindale bus wash facility to accommodate taller double deck buses and add a steam bay lift for more effective undercarriage cleaning for the entire bus fleet.

Mount San Antonio College Transit Center

Mt SAC is served by five Foothill Transit bus routes with a number of stops at the perimeter of the campus. Existing bus stops around the campus provide minimal amenities and student ridership to and from the campus is a significant segment of Foothill Transit's overall ridership. As such, the proposed project will consolidate existing bus stops around the campus into an off-street facility on the Mt San Antonio College campus. The transit center is planned to be a 10-bay transit center with amenities to enhance the bus rider experience.

West Covina Transit Center

West Covina is at the center of Foothill Transit's service area. In particular, West Covina Parkway on the south side of West Covina Plaza is a major transit corridor with multiple local and commuter express lines serving the corridor. Current bus stop amenities along West Covina Parkway are inadequate and parking for Foothill Transit Customers is limited. In light of the condition of existing transit amenities, ridership volumes and corresponding parking demand generated in the area, Foothill Transit is in discussions with the City of West Covina and the owners of the mall on possible improvements including a transit center facility along West Covina Parkway. A shared use parking facility and transit center location will be discussed as part of the transit center development.

03

KEY PERFORMANCE INDICATORS

Overall System Statistics

	FY2019	FY2020	FY2020	FY2021
OVERALL SYSTEM PERFORMANCE	ACTUAL	TARGET	ESTIMATE	TARGET
Passenger Boardings	12,053,320	11,505,000	9,846,150	7,500,000
Vehicle Service Hours	859,528	874,826	851,412	864,817
Fare Revenue	\$ 16,079,596	\$ 16,929,000	\$ 12,388,610	\$ 6,750,000
Transit Operating Expense	\$ 95,762,466	\$ 103,069,030	\$ 101,104,602	\$ 106,925,420

Analysis

Passenger Boardings and Fare Revenue

Passenger boardings are projected to decrease during FY2021 when compared to the actual results for FY2019 and the estimates for FY2020 as the COVID-19 pandemic continues to impact ridership.

In March 2020, Foothill Transit implemented rear-door boarding to provide distance between the passengers and the bus operators. As a result, no fares were collected for the remainder of FY2020. In early FY2021, Foothill Transit will begin installation of protective driver barriers on 100% of the fleet. It is anticipated that fare collection will resume in January 2021.

Vehicle Service Hours and Operating Expenses

The vehicle service hours estimate for FY2020 is less than the previous year mainly due to the recent service reduction during the COVID-19 pandemic. In FY2021, total service hours are projected to decrease over the FY2020 target. This is primarily due to changes in the express routes that took place during the March service change, the start of routes 498 and 493 were changed, and route 497 was cancelled.

Operating expenses are proposed to increase over the current year budget to accommodate the contractually required escalation and additional expenses that include increased CNG fuel costs, an increase of electricity costs as more electric buses are in operation, and increased janitorial services due to the COVID-19 pandemic.

Goals and Performance Standards

GOAL	INDICATOR	FY2019 ACTUAL	FY2020 TARGET	FY2020 ESTIMATE	FY2021 TARGET
Operate a Safe Transit System	Preventable Collisions per 100,000 miles	0.80	0.80	0.83	0.80
Provide Outstanding Customer Service	Schedule Adherence	73.2%	75.0%	74.0%	75.0%
	Average Miles Between Technical Roadcalls	11,906	11,250	13,900	13,000
	Complaints per 100,000 Boardings	17.0	20.0	16.7	18.0
Operate an Effective Transit System	Boardings per Vehicle Service Hour	14.02	13.15	11.56	8.67
	Average Weekday Boardings	40,495	38,700	32,556	25,155
Operate an Efficient Transit System	Farebox Recovery Ratio	16.8%	16.4%	12.3%	6.3%
	Average Cost per Vehicle Service Hour	\$111.41	\$117.82	\$118.75	\$123.64

Performance indicators are established annually based on projections of total vehicle service hours, ridership, revenues, and expenses. The estimated boardings per vehicle service hour, farebox recovery ratio and cost per vehicle service hour are derived directly from overall system statistics, while other indicators are estimated based on historical data and current events. Each indicator is discussed on the following page.

Analysis

Preventable Collisions per 100,000 Miles

Foothill Transit's first priority is safety. Foothill Transit is projected to end FY2020 at 0.83 preventable vehicle collisions per 100,000 miles, which is slightly above the annual goal of 0.80 preventable vehicle collisions per 100,000 miles. Preventable vehicle collisions include any preventable collision that has occurred on the road whether the bus is in or out of revenue service and preventable collisions that occur off-street at transit centers or bus stations are also included. While there was an increase in preventable vehicle collisions in September and October, performance has shown measurable improvement in recent months.

The target for preventable vehicle collisions per 100,000 miles for FY2021 will remain the same at 0.80. This rigorous target is set to ensure continued focus on safety while acknowledging the high level of traffic congestion in the Los Angeles basin.

Schedule Adherence

Throughout FY2020, roadway construction projects throughout the Foothill Transit service area continued to impact travel time and schedule adherence. The most significant of these is continuing construction along Interstate 10, which travels through the heart of the Foothill Transit service area and is a primary connection between the San Gabriel Valley and downtown Los Angeles. In relation to schedule adherence, verifying the on-time performance data has been a priority for Foothill Transit. This includes evaluating GPS positioning of each time point to accurately reflect the bus arrivals and departures. Projected on-time performance for FY2020 is 74 percent.

The FY2021 target for schedule adherence is set at 75 percent. With the OTP data available from the SMARTBus system, we can now better monitor low performing routes and work with both operations and maintenance contractors to identify areas of improvement.

Average Miles between Technical Roadcalls

In FY2020, Foothill Transit is projected to average 13,900 miles between technical roadcalls, above the performance target of 11,250 miles. This newly adopted measure tracks any mechanical breakdown that occurs, whether a bus is in revenue service or not.

The target for average miles between technical roadcalls for FY2021 is proposed at 13,000 miles. During FY2021, many buses will undergo heavy maintenance as they accumulate 300,000 miles and new CNG buses will be added to the fleet in the end of 2020 to replace the older fleet.

Complaints per 100,000 Boardings

So far in FY2020, Foothill Transit has received fewer total number of complaints in comparison to the same time in FY2019. This is mainly due to a drop in overall number of complaints related to safety, fares, and schedule adherence. The agency is projected to receive 16.7 complaints per 100,000 boardings at the end of this current fiscal year, which is lower than the goal of 20 complaints per 100,000 boardings.

The target for FY2021 is proposed at 18 complaints per 100,000 boardings.

Boardings per Vehicle Service Hour

Boardings per service hour for FY2020 is estimated at 11.56, which is under the target of 13.15 boardings per vehicle service hour. This is primarily a result of the decrease in ridership that we experienced due to the COVID-19 pandemic.

The FY2021 boardings per service hour target will decrease to 8.67. This target anticipates a decrease in ridership, as we strive to recover from the effects of the COVID-19 pandemic and implement efforts to regain ridership.

Average Weekday Boardings

In FY2020, Foothill Transit carried an estimated average of 32,556 boardings each weekday. This is under the target of 38,700 average weekday boardings and is comparable to recent bus ridership declines nationwide.

In FY2021, average weekday boardings are projected to decrease as a result of the COVID-19 pandemic impact on overall ridership, with a proposed target of 36,330 average weekday boardings.

Farebox Recovery Ratio

Farebox recovery ratio is one of the two indicators used to measure efficiency by evaluating total fare revenue as a percentage of total operating expenses. The FY2021 farebox recovery ratio target of 6.3 percent reflects a decrease in fare revenues due to the Coronavirus and an increase in operating expenses compared to the FY2020 target.

Average Cost per Vehicle Service Hour

Average cost per vehicle service hour is the ratio between overall operating expenses and planned service hours during the year. The target for FY2021 is \$123.64. This is four percent increase compared to the current year estimate, resulting from a projected increase in total operating expenses and a decrease in total service hours.

The increase in operating expenses is directly related to an increase in contracted expenses, increased fuel costs for both CNG and electricity, increased janitorial services, and increased bus monitoring. Total service hours are estimated to decrease from the FY2020 target due to the elimination of Line 497 and rerouting of Lines 493 and 498, compared to the FY2020 target.

FY2020 Completed Agency Initiatives

DuartEBus

On April 1, 2019, Foothill Transit began operating the new extended-range electric duartEBus service on Lines 860 and 861. The Monday - Saturday service operates three 35-foot battery-electric buses that are charged at the Arcadia operations and maintenance facility before being placed into service. After months of planning and coordinating with Duarte staff, procurement of the buses, outreach to the community, coach operator training, and much more, the three-year pilot with the City of Duarte was launched on April 1, 2019, replacing the city's former free-fare transit program. The duartEBus features a unique livery design that reflects the special partnership between the City of Duarte and Foothill Transit while highlighting the City's commitment to a zero-emissions and sustainable transit service.

CAD/AVL System Replacement

The final stages of system design of the new Computer Aided Dispatch/Automatic Vehicle Location (CAD/AVL) system were completed. This system includes enhancements to better monitor on-street service in real time, while providing additional data for use by Foothill Transit customers as well as by agency staff for system planning and reporting purposes. Additionally, a first-of-its-kind Voice over Internet Protocol (VoIP) communications system was installed. While the project is in its final implementation stages, it was designed with some flexibility to continue to be enhanced and refined based on business needs and additional technological advancements.

Covina Transit Center and Park & Ride

Foothill Transit partnered with the City of Covina and a private developer to develop and construct the Covina Transit Center and Park & Ride. The project involved the redevelopment of the project site with a City component to include an event center and professional office space, residential units, and a transit component. The Park & Ride consists of a three-level parking structure, bus bays, and provisions for electric bus charging stations to accommodate Foothill Transit buses. Foothill Transit launched Express Line 490 service that serves the Covina Transit Center and Park & Ride on March 1, 2020.

Fare Restructuring Implementation - Phase II

In October 2017, Phase I of Foothill Transit's two-phase fare restructuring was implemented. Phase I consisted of a simplification of the fare structure and the introduction of a day pass. The Board also authorized the second phase of the fare restructuring, which was implemented in September 2019. Phase II involved a pricing adjustment across the entire fare structure to help meet our long term financial goals. The fare restructuring was considered successful.

FY2021 Initiatives

Comprehensive Operational Analysis (COA)

A comprehensive operational analysis (COA) is designed to examine and evaluate a transit system to determine where improvements can be implemented to make transit operations more effective and efficient across the network.

There may be numerous factors that contribute to the effectiveness or ineffectiveness of a route, just as there can be many possible solutions to the issues that need to be addressed. The primary goal of a COA is to focus on where improvements in productivity and efficiency of transit operations are most reasonable, based on a thorough analysis of the existing system's characteristics and the land use context that may have changed over time. These factors inform the decisions on where resources should be intensified, reallocated, or discontinued. A COA assists transit agencies in evaluating the changing environments in which they operate and is generally recommended to be completed every three to five years.

Foothill Transit's last COA was completed in March 2016. The current COVID-19 pandemic has caused many customers to alter their work schedules and travel patterns. These changes, along with reduced maximum capacities onboard the vehicles will need to be studied to determine how best to meet the changing needs of the communities we serve.

ExpressLanes Operations

Construction of the HOV lanes between I-605 and SR-57 have been underway, with completion scheduled for 2021. To ensure effective traffic flow and transit service operation when the lanes open, it is critical that the occupancy requirement mirror the three-person peak occupancy requirement of the busway portion of the lanes. Staff will work with Metro, Caltrans, and our state delegation to pursue operating rules and/or legislation that will increase the effectiveness of these lanes.

Fare Technology

Advancements in fare payment technology are being implemented throughout the world and customers in the Los Angeles area are eager to see a simpler, more streamlined fare collection system implemented locally. Working with the selected vendor, Foothill Transit will begin the implementation of a three-year pilot program to adopt a mobile ticketing solution which can be adopted in addition to the countywide TAP program.

Zero-Emissions Fleet formerly Fleet Electrification

In 2010, Foothill Transit deployed three Proterra battery electric buses into revenue service and became the first transit agency in the nation to deploy fast-charge, all-electric buses into regular service. Over the last ten years, we have gained valuable experience and knowledge operating the electric fleet, which has now grown to 33 coaches. The necessary electric charging infrastructure for Foothill Transit's first 14 extended-range electric coaches was completed in the winter of 2019 allowing the charging of extended-range buses at the Arcadia/Irwindale yard. The Burns and McDonnell Report issued in September 2019 showed the high cost of infrastructure to electrify our entire fleet, impacts on operations, complicated charging protocols to name a few necessitates us to investigate other zero-emissions technologies. This work will proceed in FY2021 with a consultant to develop a fuel cell strategy.

FY2021 Initiatives CONTINUED**Fuel Cell Bus Procurement**

Foothill Transit has been the leader in the deployment of zero-emission bus technology around the United States. In conjunction with Foothill Transit's plan for fleet electrification, Foothill Transit plans to further its deployment of zero-emission technology and will begin the procurement process for 20 zero-emission hydrogen fuel cell buses. The buses are expected to be delivered in FY2022 and deployed onto Foothill Transit Line 486 from Pomona to El Monte.

Mobility as a Service (MaaS)

The first/last mile of a customers' trip is one of the biggest challenges facing transit agencies today. The challenge is identifying how best to get customers from home or work to bus stops or Transit Centers. These trips may not be productive enough to warrant a dedicated bus route or the area may not be suited for a 40-foot bus. Many agencies have partnered with various transportation network companies (TNCs), such as Uber and Lyft, which provide shared rides or with an active transportation company like Bird or Lime to provide bikes and scooters to help customers get to and from bus stops. Foothill Transit is currently a partner with LA Metro piloting on-demand service provided by Via for passenger trips to and from the El Monte Station. Foothill Transit is also working closely with LA Metro to identify a possible site for microtransit service within a specified zone. As Foothill Transit looks to develop more high quality transit corridors, it will likely be most beneficial to rely more heavily on member cities to provide the first/last mile service for its residents. Foothill Transit will work with its member cities and neighboring agencies such as Pomona Valley Transportation Authority (PVRTA) to help develop the partnerships with transportation companies.

Mt. SAC Transit Center

With the success of the Class Pass program at Mt. SAC, the development of a transit center on campus continues to move forward. Mt. SAC is one of the largest trip generators in the Foothill Transit system with a limited number of high-quality bus stops. Foothill Transit was awarded a federal grant for the construction of this transit center. The development of this facility is underway and the plans include ten transit bays with covered bus shelters for customers. Mt. SAC plans to build a pedestrian bridge over the Transit Center. Hence, additional coordination is required with the College to incorporate pedestrian bridge foundation design inside the transit center footprint. Concept design and environmental studies were completed in December 2018, Plan Check is anticipated for approval by the Division of State Architects by May 2020. Due to the overhead bridge project being built simultaneously, the transit center will be constructed in two separate phases. The anticipated start of construction for Phase 1 is December 2020 with completion slated for Fall 2022.

Website Redesign

Foothill Transit first established its Internet presence in October 1998. Since then, foothilltransit.org has undergone complete redesigns in 2000, 2005, 2007, 2009, 2012, and 2014, with several smaller updates in between to include new technologies, branding, services, and campaigns. Online industry standards advise updating or overhauling a business website presence every three to four years. Since our last website redesign, Foothill Transit has adopted new CAD/AVL technology in our fleet that significantly upgrades the quality and delivery of important information to our customers. A redesign of the website will incorporate this and other new technologies to evolve the agency's primary online asset and improve the customer experience.

Funding Sources

Foothill Transit is funded with state and local sales tax funds, federal transportation funds, and farebox revenues.

The majority of funds are transportation subsidies allocated by the Regional Transportation Planning entity (LA Metro) to Los Angeles County fixed-route transit operators through the Formula Allocation Procedure (FAP) and the Capital Allocation Procedure (CAP). The FAP uses vehicle service miles and passenger revenues to apportion the available revenues into percentage shares. The CAP uses total vehicle miles and active fleet size (National Transportation Database data) to apportion the shares. The sources of funds are discussed in the following sections.

Los Angeles County Resources

Proposition A 40% Sales Tax Funds

Proposition A is a Transit Operations voter approved one-half cent Los Angeles county local sales tax ordinance. These funds may be used for bus operations or capital. This source also funds the Prop A Bus Service Continuation Program (BSCP).

Proposition C 40% Discretionary Sales Tax Funds

Proposition C is a 1990 voter approved one-half cent Los Angeles County sales tax ordinance. The funds are allocated to the regional transit operators through the following LA Metro Board adopted programs: 1) Municipal Operator Service Improvement Program (MOSIP); 2) Bus System Improvement Plan Overcrowding Relief on Lines 480, 481, and the Silver Streak; 3) Transit Service Expansion on Line 690; 4) Base Restructuring on Lines 497 and 498, and local Saturday service on various lines; and, 5) Prop 1B Bridge funding eligible for public transportation modernization improvements, service enhancements, and security expenditures. The Prop C 40% funds are eligible for transit operations and transit capital.

Proposition C 5% Transit Security

These funds are specifically intended to improve transit security. They are distributed to county transit operators based on total unlinked passenger trips.

Measure R 20% Bus Operations

Measure R is a 2008 voter approved Los Angeles County sales tax ordinance. These funds are eligible for bus operating and capital expenses.

Measure M 20% Bus Operations

Measure M is a 2016 voter approved Los Angeles County sales tax ordinance. These funds are eligible for bus operating and capital expenses.

Metro ExpressLanes Net Toll Revenue Reinvestment Grant Program

Metro ExpressLanes Net Toll Revenue Reinvestment Grant Program is funded by toll revenues collected from the use of the ExpressLanes on the I-10 and I-110 corridors. Grant funds are invested in projects and programs that provide direct mobility benefits to the I-10 and I-110 ExpressLanes within a three-mile radius. The primary objective of the Net Toll Revenue Program is to increase mobility and person throughput via implementation of integrated strategies that enhance transit operations, transportation demand management, transportation systems management, active transportation, and capital investments in the I-10 and I-110 corridors.

State Resources

Transportation Development Act (TDA) Article 4

TDA is a statewide one-quarter cent sales tax that is deposited into the State Local Transportation Fund. TDA funds are eligible for capital and operating expenses.

State Transit Assistance Funds (STA)

STA is a statewide excise tax on fuel, the funds are eligible for use on transit capital and operating expenses.

SB-1 (State of Good Repair Program)

The Road Repair and Accountability Act of 2017, Senate Bill (SB) 1 (Chapter 5, Statutes of 2017), signed by the Governor on April 28, 2017, includes a program that will provide additional revenues for transit infrastructure repair and service improvements. SB 1 emphasizes the importance of accountability and transparency in the delivery of California's transportation programs. This investment in public transit is referred to as the State of Good Repair program. This program provides funding of approximately \$105 million annually to the State Transit Assistance (STA) Account. The funds are distributed to transit agencies throughout the State according to the STA formula. These funds are available for eligible transit maintenance, rehabilitation and capital projects.

Low Carbon Transit Operations Program (LCTOP)

LCTOP is funded by auction proceeds from the California Air Resource Board's (ARB) Cap-and-Trade Program and deposited into the Greenhouse Gas Reduction Fund (GGRF). This program is a component of the State of California budget (by Senate Bill 852 and Senate Bill 862) with a goal of reducing greenhouse gas emissions. These funds are eligible for transit operating and capital projects that reduce greenhouse emissions.

Transit and Intercity Rail Capital Program (TIRCP)

TIRCP was created by Senate Bill 862 (Chapter 36, Statutes of 2014) and modified by Senate Bill 9 (Chapter 710, Statutes of 2015) to provide grants from the Greenhouse Gas Reduction Fund to fund transformative capital improvements that will modernize California's intercity, commuter and urban rail systems, and bus and ferry transit systems to reduce emissions of greenhouse gases by reducing congestion and vehicle miles travelled throughout California.

Funding Sources CONTINUED**Public Transportation Modernization Improvement and Service Enhancement Account (PTMISEA)**

PTMISEA (also known as Prop. 1B) is a ten-year statewide general obligation bond eligible for use on transit capital.

Carl Moyer Memorial Air Quality Standards Attainment Program (Carl Moyer Program)

The Carl Moyer Program is funded through tire fees and smog impact vehicle registration fees. It reduces air pollution from vehicles and equipment by providing incentive funds to purchase cleaner than legally required engines, equipment, and emission reduction technologies. It also achieves reductions in emissions of key pollutants which are necessary for California to meet its clean air commitments under regulatory requirements.

Federal Resources**Coronavirus Aid, Relief, and Economic Security (CARES) Act**

The Coronavirus Aid, Relief and Economic Security Act was passed by Congress and signed into law on March 27, 2020. The bill includes \$25 billion for public transit agencies throughout the United States. Foothill Transit was allocated \$33 million of CARES funds. These funds are eligible for operating expenses, capital expenses, and COVID-19 related procurements.

Federal Urban Area Formula Program (Section 5307)

These funds are allocated by the Federal Transit Administration to Los Angeles County transit operators based on a capital allocation formula consisting of total vehicle miles, number of vehicles, unlinked boardings, passenger revenue and base fare. They are used for capital procurements or preventive maintenance expenditures. These funds require a 20 percent local match.

Federal Buses and Bus Facilities and Low-or No-Emission Program (Section 5339)

The Grants for Buses and Bus Facilities program (49 U.S.C. 5339) makes federal resources available to States and direct recipients to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities including technological changes or innovations to modify low or no emission vehicles or facilities. Funding is provided through formula allocations and competitive grants. A sub-program, the Low- or No-Emission Vehicle Program, provides competitive grants for bus and bus facility projects that support low and zero emission vehicles.

Federal State of Good Repair Program (Section 5337)

State of Good Repair funds must be used either to maintain system infrastructure for buses or rail operating on exclusive transportation right-of-way or to maintain buses operating on lanes not fully reserved for public transportation. These funds are allocated through the CAP. They are capital funds used to maintain, replace and rehabilitate vehicles and transportation equipment. They require 20 percent local match.

Federal Congestion Mitigation and Air Quality (CMAQ)

These funds are programmed for cost-effective emission reduction activities and congestion mitigation projects that provide air quality benefits. They require 20 percent local match.

Non-Subsidy Resources**Auxiliary Revenue**

Foothill Transit has operated park & ride shuttle service for the Rose Bowl, Hollywood Bowl, and the L.A. Marathon for a number of years. These special services revenues will decline significantly in FY21 in line with the associated reduced costs of providing these services.

Revenue Summary

	FY2020 BUDGET	FY2021 BUDGET
Operating and Other Revenues		
Fare Revenue	\$ 16,929,000	\$ 6,750,000
Operating Subsidies	86,140,030	100,175,420
Property Management Revenue	355,000	355,000
Special Service Revenue	600,000	100,000
Total Operating and Other Revenues	\$ 104,024,030	\$ 107,380,420
Capital Revenues		
Total Capital Revenues	\$ 76,745,861	\$ 89,422,135
Total Budgeted Expenditures	\$ 180,769,891	\$ 196,802,555

Expenditure Summary

	FY2020 BUDGET	FY2021 BUDGET
Operating and Other Expenses		
Transit Operating Expenses	\$ 103,069,030	\$ 106,925,420
Non-Operating Expenses	955,000	455,000
Total Operating and Non-Operating Expenses	\$ 104,024,030	\$ 107,380,420
Expenditures		
New Capital Programs (annual)	\$ 7,008,000	\$ 9,637,000
Existing Capital Programs (annual)	69,737,861	79,785,135
Total Capital	\$ 76,745,861	\$ 89,422,135
Total Budgeted Expenditures	\$ 180,769,891	\$ 196,802,555

Funding Assumptions

- Farebox revenues decrease due to the coronavirus
- Capital Revenues include formula and competitive grants
- CARES Act funds will fund operating expenses

Expenditure Assumptions

- Transit operating expenses increased by 3.7 percent over prior year budget
- Continue fleet replacements for 44 CNG buses
- Complete heavy maintenance on 30, 2100-series CNG buses; this includes heavy maintenance and transmission overhaul
- Begin construction of Mt. SAC Transit Center

Operating Expenses by Department

	FY2020 BUDGET	FY2021 BUDGET
Transit Operating Expenses		
Customer Service & Operations	\$ 87,880,200	\$ 91,645,340
Maintenance & Vehicle Technology	783,210	815,060
Marketing & Communications	2,238,710	2,238,710
Information Technology	2,362,140	2,211,630
Administration	3,271,980	2,171,050
Procurement	884,550	859,220
Government Relations	-	957,110
Finance	1,929,180	1,887,510
Planning	1,705,600	1,607,470
Facilities	2,013,460	2,532,320
Total Operating Expense	\$ 103,069,030	\$ 106,925,420
Non-Transit Operating Expenses		
Property Management	\$ 355,000	\$ 355,000
Special Services	600,000	100,000
Total Non-Operating Expenses	\$ 955,000	\$ 455,000
Total Expenditures	\$ 104,024,030	\$ 107,380,420

Capital Summary

	FY2020 BUDGET	FY2021 BUDGET
NEW Capital Programs		
Buses/Fleet Maintenance	\$ 1,278,000	\$ 7,637,000

CAPITAL BUDGET

Capital Program

The currently proposed capital projects, with total life-of-project budgets of \$255.2 million, includes \$35.4 million of newly proposed projects. Each project includes the life-of-project budget, estimated expenditures through FY2020, and the balance of expenditures for future years.

Newly Proposed Capital Projects for FY2020-2021

- 0212 Hydrogen Fuel Cell Bus Replacement and Fueling Infrastructure** - This project will fund the replacement of 20 CNG buses in Foothill Transit's fleet. This bus replacement project, from procurement through construction and deployment, will occur over two fiscal years. The project scope also includes the construction, installation, and project management of fuel cell infrastructure to support 20 fuel cell buses.
- 0211 On-Board Information System** - This project will install front and rear 18.5" monitor displays on the fleet of 60-foot articulated buses. It will provide next stop, route map, and Foothill Transit media announcements to passengers.
- 0210 Zonar GPS Upgrade** - This project will include the purchase of new Zonar V4 GPS units to replace the Zonar V3 units due to cellular phone companies discontinuing their 3G bands. The Zonar G4 units will use the 4G LTE band.
- 0219 Facilities Capital Contingency FY2021** - This project will be used for unexpected emergency facility capital projects that must be completed throughout the fiscal year. Funds do not carry over year-to-year.
- 0218 Arcadia/Irwindale Facility Improvements** - This project includes replacing various equipment items at the Arcadia/Irwindale Facility in accordance with Foothill Transit's Transit Asset Management Plan, which was adopted on September 28, 2018.
- 0217 Pomona Facility Improvements** - This project includes replacing various equipment items at the Pomona Facility in accordance with Foothill Transit's Transit Asset Management Plan, which was adopted on September 28, 2018.
- 0216 Administration 4th Floor Carpet Replacement** - This project will replace existing carpet with ceramic tile, new baseboard, and new paint in the 4th floor lobby and hallway.
- 0215 Administration Building Exterior Lighting Upgrades** - This project will replace the existing parking lot lights with energy efficient lighting. The cost includes design/consultant fees, if any, as well as the costs for new light fixtures and their installation. The potential energy savings range for the parking lot lights is from 75-90 percent.
- 0214 Bus Stop Sign Inventory Replenishment** - This project is for the purchase of approximately 300 bus stop blades and approximately 500 temporary bus stop signs to replenish inventory. This order should last through FY2022.
- 0213 Gas Filtration Alarm Replacement** - This project will consist of replacing the existing gas filtration alarm system at the Pomona Operations and Maintenance facility. This system detects unsafe levels of natural gas fumes within the maintenance building.
- 0226 IT COVID-19 Capital Investment** - This project will be used in FY2021 to fund equipment required to respond to working conditions that have been adjusted in response to the COVID-19 pandemic. This includes computers, ancillary equipment, and safety equipment, such as body temperature scanners.
- 0225 Access Point Replacement** - This project will replace existing and additional access points for the two operations and maintenance facilities and the administration building. To ensure business continuity and to ensure we can meet the requirements of the computer-aided dispatch and automatic vehicle location (CAD/AVL) system along with the security camera footage from the buses, the existing wireless infrastructure must be replaced. Additional access points are also needed to keep up with the rate of uploads and downloads.
- 0224 Antivirus Replacement** - This project will replace the existing antivirus program to ensure Foothill Transit's business continuity. Cybersecurity attacks have evolved and require a more robust antivirus program that provides better protection. This includes analytics, as well as tracing to mitigate future attacks.
- 0223 Arcadia/Irwindale Facility Network Cabling Upgrade** - The network cabling at the Arcadia/Irwindale facility was installed when the building was constructed in 2002. The network cabling has been damaged due to weather, rodents, and is now out of date. The number of cables also needs to be increased due to an increase in the number of pieces of equipment requiring communications capability.
- 0222 Replacement Monitors** - Computer monitors at the Transit Stores, operations and maintenance facilities, and the administration building have reached end of life and are starting to fail. To ensure business continuity, the old monitors must be replaced.
- 0221 System Information Event Monitoring (SIEM) Replacement** - This project will replace our existing SIEM technology at the West Covina offices. The existing SIEM system has reached the end of its useful life and will need to be replaced. This system monitors and detects anomalies that may arise from cyber security attacks.
- 0220 HASTUS NetPlan** - This new software program is required for route planning. The program analyzes the transit system and provides financial and operational impacts when lines are modified, created, or deleted.

Customer Service and Operations

The Customer Service and Operations department is responsible for ensuring the safe and efficient daily operation of Foothill Transit service, focusing specifically on applied enforcement of agency standards for operating performance.

The department also works closely with the four Foothill Transit Stores to improve the customer service experience; from when a customer calls for information about their proposed trip, to the actual completion of their bus ride, and through the customer feedback process. The safety of our customers, contractors, and staff is a primary focus of the Customer Service and Operations department and the team works directly with local, state, and national safety organizations in this effort.

	TOTAL	\$ 84,940,023	\$ 87,880,200	\$ 91,645,340

Budget Account Notes:

5411 Staff appreciation activities included in Marketing Department Budget

5720 G4S Contract was moved to the Facilities Department Budget

FY2020 Accomplishments

Daily monitoring of service during COVID-19 Service Adjustments

Provided regular updates of ridership counts by route using Automatic Passenger Counters

Updated agency Public Transportation Agency Safety Plan to include COVID-19 Response

Monitored contractor COVID-19 response supplies and personal protective equipment inventory

Conducted daily visual inspections for ridership/load counts at key transit centers

Remotely monitored all loads in real time to support service adjustments

Provided support for procurement of Arcadia/Irwindale Operations and Maintenance contract

Submitted Federal Transit Administration Public Transportation Agency Safety Plan

Implemented E-Alerts Customer Safety Issues Reporting Program

Incorporated American Bus Benchmarking Group Statistics into agency KPI Assessments

Collaborated with the Southern California Transit Mutual Assistance Compact (TransMAC)

Enhanced participation in APTA Safety & Security Programs and Initiatives

Provided support for testing for Computer Aided Dispatch/ Automatic Vehicle Locator System

Coordinated service for Hollywood Bowl, Rose Bowl and LA Marathon Special Events

Hosted Transit Safety Administration Exercises for Training at Operations & Maintenance Teams

Incorporated Duarte Transit Service into system performance metrics

Coordinated Foothill Transit's 24th Annual Bus Rodeo

Selected to present Foothill Transit Safety Data at Transit Research Board Annual Meeting

FY2021 Initiatives

Update Foothill Transit's Continued Operations Plans and other safety plans

Support Avail Customer Communication Tool Development

Continue monitoring and modifying procedures as needed to respond to FTA's Safety Management System requirements

Continue development and reporting of Foothill Transit KPI's utilizing American Bus Benchmarking Group data

Incorporate new CAD/AVL data into on-time performance improvement plans

Support Headsign Refurbishment activities

Develop Company Threat and Vulnerability Assessment (TVA)

Maintenance and Vehicle Technology

The Maintenance and Vehicle Technology (MVT) Department ensures daily operation of Foothill Transit’s revenue and non-revenue vehicle fleet through the systematic enforcement of Foothill Transit standards for fleet maintenance and oversight of maintenance on fueling stations, including electric bus charging stations. The MVT Department ensures ongoing local, state and federal regulatory compliance of the fleet and environmental compliance of the operations. In addition, the MVT department is responsible for the development and implementation of Foothill Transit’s alternative fuels program including specifications, in-plant inspection, and acceptance of all new rolling stock and technologies to maximize efficiencies in both operations and maintenance. The MVT department participates and supports legislative efforts in the development of policies and regulations for transit fleet electrification.

TOTAL		\$ 758,965	\$ 783,210	\$ 815,060

Budget Account Notes:

5260 Increased due to new Electric Bus monitoring

FY2020 Accomplishments

Procured and installed driver protective equipment for entire fleet during COVID-19 pandemic

Updated the Foothill Transit fleet replacement plan according to CNG tank expiration dates

Procured, inspected and accepted 11 new 42 ft. CNG buses

Procured twenty-four 60 ft. Articulated CNG buses, eighteen 42 ft. CNG buses, and two 35 ft. CNG buses

Procured one non-revenue replacement vehicle

Procured driver barriers to mitigate effects of COVID-19 pandemic

Implemented plans for 13 battery electric bus in-depot charging systems at the Arcadia Irwindale yard

Conducted bus route energy usage analysis

Participated and engaged in Autonomous Bus Consortium

Implemented bus heavy maintenance on series 2100 buses

Launched pilot program for 2 Alexander Dennis Double Deck buses on commuter and express routes

Completed Foothill Transit’s comprehensive fleet electrification and in-depot charging infrastructure study

FY2021 Initiatives

Complete installation of driver barriers on all revenue vehicles

Inspect and accept two new 42 ft. Double Deck buses, two new 35 ft. CNG buses, eighteen 42 ft. CNG buses, and twenty-four 60 ft. Articulated buses

Transfer CAD/AVL equipment from retiring buses to replacement buses

Retire 1600 series buses (60 ft. Articulated buses)

Implement bus heavy maintenance on Series 2200 and 2300 buses

Develop and implement fuel cell bus program

Purchase two non-revenue plug-in hybrid electric vehicles

Develop and submit Foothill Transit’s Zero Emissions plan as required by CARB’s ICT Rule

Marketing and Communications

The Marketing and Communications team supports, brands, and promotes Foothill Transit service with the goal of heightening public awareness of Foothill Transit and increasing ridership. This is accomplished through strategic planning, targeted advertising, face-to-face community engagement, public affairs outreach, media exposure, special events, myriad on-board communications, and owned media.

Account #	ACCOUNT NAME	FY2019	FY2020	FY2021

TOTAL		\$ 1,726,907	\$ 2,238,710	\$ 2,238,710

Budget Account Notes:

5300 Reduced as budget for Covina Transit Center completed

FY2020 Accomplishments

Launched an integrated communications plan for Phase II of Fare Restructuring and Commuter Express service changes

Developed the launch campaign for the Covina Transit Center, which included a partnership with the City of Covina

Refreshed the Class Pass program for the fall semester, including a new pilot program at Azusa Pacific University

Began the development of re-designing the agency's website

Participated in regional days of recognition for awareness campaigns including Clean Air Day, The Great Shakeout, Rideshare Week, and Bike to Work Week

Refreshed digital advertising campaigns using AdWords, Facebook, and Instagram platforms

Began development of new marketing campaigns based on recommendations from the RGAP study

Launched Foothill Transit Watch app

Developed crisis communications plans in response to the COVID-19 pandemic and protests

Facilitated active agency support of and participation in over 100 regional and national non-profit, transportation, and business-centered organizations

Participated as a charter agency in the Regional Transit Marketing Exchange

Promoted the benefits of new MOD programs in our region to customers

FY2021 Initiatives

Develop strategic response during the COVID-19 phased re-opening, including safety guidelines and re-opening strategies

Develop internal communications strategies related to COVID-19 phased re-opening of the workplace

Develop and launch new website with improvements to customer usability on mobile and desktop platforms, streamlining information to customers, and back-end improvements

Launch the Class Pass pilot program at Cal Poly Pomona

Participate in the annual ABBG Customer Satisfaction Survey

Promote the all-electric double deck bus launch

Launch mobile fares app

Promote Mt. SAC Transit Center construction and service

Information Technology

The Information Technology (IT) Department is responsible for management, coordination, and implementation of information technology to ensure timely and cost-effective delivery of services to the public. The department provides data and communication solutions to Foothill Transit’s administrative staff, the Transit Stores, and the operations and maintenance contractors to achieve Foothill Transit’s goals and objectives.

Account #	ACCOUNT NAME	FY2019	FY2020	FY2021
		ACTUAL	BUDGET	BUDGET
5100	Salaries, Wages & Benefits	\$ 540,749	\$ 769,890	\$ 706,350

TOTAL		\$ 1,739,124	\$ 2,362,140	\$ 2,211,630

Budget Account Notes:

- 5260** Adding professional services for Laserfiche and the Core Switch Replacement
- 5550** Slight increase for employee training for new FTE
- 5720** Decreased due to the replacement of the Bus and Dispatch Radio System

FY2020 Accomplishments

Continued the customization of the Computer Aided Dispatch and Automated Vehicle Location (CAD/AVL) and reached the last phase of the project

Replaced the aging computers for the administrative building and the yards

Upgraded all computers to Windows 10 and Office 2016

Completed the replacement of the aging network infrastructure in the administrative office building

Completed the replacement of the Transit Stores’ video surveillance system

Completed the replacement of the outdated File Transfer (FTP) server

FY2021 Initiatives

Deploy Microsoft System Center Configuration Manager to efficiently manage large groups of computers running Microsoft Windows

Replace the aging core switch for the administrative building

Replace the aging thin client computers at the Transit Stores

Continue upgrading the servers to Microsoft Server 2016

Replace aging wireless access points at both yards to provide better coverage for CAD/AVL and surveillance video downloads

Replace our aging security information and event management system to mitigate new cybersecurity threats

Administration

The Administration Department is responsible for providing management direction to all departments within the organization while executing the strategies and policies of the Executive Board. This includes leadership of the organization's efforts in the areas of Disadvantaged Business Enterprise compliance, Safety Management Systems, and Transit Asset Management. Additionally, the Administration Department provides Board support and office support including the monitoring of office supplies, and coordination of the organization's central filing system.

- 5555** Reduced to reflect limited travel as a result of the COVID-19 pandemic

FY2020 Accomplishments

Supported the Executive Board and Governing Board

Ensured effective Executive Board and Governing Board communications

Advocated for federal funding for Foothill Transit capital projects

Managed the 4th year of the West Coast Multi-Agency Exchange (MAX) leadership development program

Strengthened industry involvement and enhanced Foothill Transit's visibility and influence with the American Public Transportation Association, California Transit Association, Southern California Regional Transit Training Consortium (SCRTTC) and Access Services

Continued and strengthened industry involvement in Conference of Minority Transportation Officials (COMTO) and Women's Transportation Seminar (WTS)

FY2021 Initiatives

Support the Executive Board and Governing Board

Ensure continued strong relationships with Foothill Transit's stakeholders and funding partners

Continue to advance the development of a Class Pass program and Transit Center on the Cal Poly campus

Maintain effective Executive Board and Governing Board communications

Advocate for federal funding for Foothill Transit capital projects

Maintain strong industry involvement with American Public Transportation Association, California Transit Association, Access Services, COMTO, and WTS

Ensure continued involvement in and expansion of the West Coast Multi-Agency Exchange (MAX) leadership development program

Procurement

The Procurement Department is responsible for supporting Foothill Transit's mission through the timely completion of procurement and contract administration activities. It is also responsible for the disposition of capital assets and provides support for Foothill Transit's Disadvantaged Business Enterprise program.

Account #	ACCOUNT NAME	FY2019	FY2020	FY2021
		ACTUAL	BUDGET	BUDGET
5100	Salary, Wages & Benefits	\$ 323,379	\$ 463,050	\$ 450,220

TOTAL		\$ 598,496	\$ 884,550	\$ 859,220

Budget Account Notes:

- 5300** Increased use of E-Procurement and online advertising has decreased costs
- 5555** Recategorized line items to Business Travel and Meeting from Account 5550

FY2020 Accomplishments

Earned a third consecutive National Procurement Institute's Achievement of Excellence in Procurement award.

Coordinated agency administrative policies, procedures, and systems including updates to the Procurement Policies and Procedures Manual

Procured emergency goods and services in response to the COVID-19 pandemic in addition to procuring standard services that support capital activities occurring at Foothill Transit administrative offices and the operations and maintenance facilities.

Managed and contracted procurements for transit operations at the Arcadia Irwindale Operations and Maintenance Facility, 60' articulated, 40' and 35' buses, administrative building compliance modernization and maintenance facility capital improvements

Leveraged outreach to and competition from local and national vendor community through effective utilization of electronic procurement platform, leading to significantly reduced costs of IT goods

FY2021 Initiatives

Successfully procured emergency goods and services in response to the COVID-19 pandemic in addition to procuring standard services that support capital activities occurring at Foothill Transit administrative, maintenance and operations facilities

Ensure successful and timely procurement of goods and services to support Foothill Transit's mission

Earn a fourth National Procurement Institute's Achievement of Excellence in Procurement award

Support Foothill Transit in the promotion of innovative concepts and methodologies, including opportunities with emerging technologies

Ensure Foothill Transit's Procurement Manual remains consistent with Federal and State procurement guidelines

Manage the procurement process for construction of the Mt. SAC Transit Center, capital improvements at agency facilities and other services and goods that are core to the agency's mission

Government Relations

The Government Relations Department is responsible for overseeing federal, state and local legislative and regulatory activities including establishing and maintaining legislative contacts, tracking transit-related legislation and regulations, obtaining the maximum amount of federal, state and local funding and informing stakeholders of pending government developments. Government Relations also supports legislative activities in the development of policies and regulations for the agency’s zero emission bus program and public affairs outreach efforts.

Account #	ACCOUNT NAME	FY2019	FY2020	FY2021

TOTAL		\$ -	\$ -	\$ 957,110

Budget Account Notes:

- The Government Relations Department was previously included in the Administration Department

FY2020 Accomplishments

Educated key constituencies to assist in the defeat of a referendum to overturn SB 1, thus providing Foothill Transit with significant operating funds

Communicated agency positions on legislative and regulatory proposals to key local, state and federal governing bodies

Advocated for federal and state funding for Foothill Transit capital projects

Strengthened industry involvement and enhanced Foothill Transit’s visibility and influence with the American Public Transportation Association and California Transit Association

Strengthened industry involvement in California Air Resources Board, CALSTART, Center for Transportation and the Environment, and California Energy Commission

Partnered with Southern California Edison to analyze electricity usage from electric bus program to determine continued public policy considerations

Continued analysis of zero-emission technologies that aid in Foothill Transit’s effort to reduce carbon emissions

FY2021 Initiatives

Develop and maintain productive relations with elected officials

Develop and Maintain relationships with the Federal Transit Administration, the California Transportation Commission, the California Department of Transportation, and other governing bodies

Develop and implement Federal, State, & Local Legislative Programs

Communicate with local, state, and federal government legislative bodies on proposed policy changes and regulations that would impact Foothill Transit

Develop and maintain regional and local participation to ensure effective partnerships, visibility, and influence with relevant transportation policies and projects

Advocate for increased federal and state funding sources for transportation agencies, with an emphasis on capital investments for zero-emission technologies

Maintain Foothill Transit’s visibility and influence with the American Public Transportation Association and California Transit Association

Strengthen and maintain visibility and involvement in California Air Resources Board, CALSTART, the Center for Transportation and the Environment, and California Energy Commission

Strengthen partnership with Southern California Edison and continue analyzing electricity usage from electric bus program to continue refining public policy considerations

Continue analyzing alternative zero-emission bus technologies to ensure Foothill Transit’s best route to transition to zero-emission bus fleet

Finance

The Finance Department provides support services including accounting, payroll, financial planning, grant administration, budget development and long-range forecasting, accounts receivable billing and collections, and financial reporting for the organization. Finance also administers the required annual financial and compliance audits, oversees the investment portfolio, manages the retirement program, and monitors cash flow. The department also manages fare revenue collection and maintenance of related equipment, and manages human resources and benefits administration.

Budget Account Notes:

5545 Tuition Reimbursement moved from Administration Budget

FY2020 Accomplishments

Updated the ten-year financial forecast and monitored budget progress

Created a Descriptive Chart of Accounts for Expenses/Expenditures

Completed numerous financial audits resulting in no material findings

Received the National Government Finance Officers Association award for excellence in financial reporting

Developed life of project budgets for fleet purchases and supporting infrastructure to align with the fleet replacement plan

Completed the replacement of all Foothill Transit fareboxes

Conducted a five-year capital improvement call-for-projects

Prepared annual operating and capital budgets; included annual cash flow for capital projects

Represented Foothill Transit on Transportation Finance Learning Exchange (TFLEX), Bus Operator Subcommittee (BOS) of LA Metro, and the Women's Transportation Seminar (WTS) International Board of Directors

FY2021 Initiatives

Implement the mobile ticketing program

Update the ten-year financial forecast and monitor budget process; prepare scenarios for revenue losses resulting from COVID19

Secure funding for the transition of Foothill Transit's fleet to Zero-Emission Vehicles

Develop on-boarding process for new employees to include telecommuting changes

Implement the ACH payment system for 80% of total expenses

Conduct Sexual Harassment Training for all employees

Planning

The Planning Department is responsible for route planning, coordination with member cities and neighboring transit systems in the design and construction of transit-related projects. The department works closely with cities to ensure that all bus stop locations are safe and ADA compliant. The department also projects service levels and budgets and monitors actual costs related to Foothill Transit's two operating contracts.

TOTAL		\$ 966,328	\$ 1,705,600	\$ 1,607,470

Budget Account Notes:

- 5260** No budget for Autonomous Bus Study and includes funding for a COA
- 5720** Added Avail MyStop Real Time Hosting

FY2020 Accomplishments

Implemented a pilot express line from the newly constructed Covina Park & Ride

Reorganized the Express service into Downtown Los Angeles to improve its efficiency and effectiveness

Reinvested savings from line enhancement into lines that are the backbone of the frequent network

Upgraded traffic signal priority data communication along Colorado Boulevard

Integrated the new Downtown Los Angeles layover with Foothill Transit service

Implemented service enhancements designed to improve line productivity by adjusting frequencies to ridership demands, cancelling non-productive lines, and reinvesting the savings into other services

Developed the foundation for a frequent network of service by establishing select corridors throughout the service area

Inventoried all Foothill Transit's existing bus stops, including amenities

Completed installation of traffic signal priority equipment at designated intersections to improve Line 187 on-time performance

FY2021 Initiatives

Conduct a comprehensive operational analysis to meet customers' unmet needs and improve overall efficiencies in the transit system

Reinvest savings from line enhancement into lines that are the backbone of the frequent network

Reimagine the Foothill Transit Bus Book to allow more frequent updates and improvements to the service

Begin the implementation of traffic signal priority along Amar Boulevard to speed up service on Line 486

Integrate the Foothill Transit all-electric double deck bus into revenue service

Facilities

The Facilities Department is responsible for all Foothill Transit’s physical assets, including grounds, administrative offices, operations and maintenance facilities and parking structures. The department implements a comprehensive and strategic approach to developing, enhancing, and sustaining Foothill Transit’s physical assets. In addition, the department plays a supporting role in the operations through the installation and upkeep of Foothill Transit’s bus stop signage program.

Budget Account Notes:

- 5420** New expenses related to the operation of the DTLA Layover and New services for the Covina Transit Center
- 5471** New contract for Janitorial Services went into effect March 1, 2020. New contract for Covina Transit Center, and increased Janitorial Services at the Administration Facility due to the COVID-19 Pandemic to ensure employee and customer safety
- 5720** Decreased as Transit Store Leases are moved to Account 5710 and Trailer Rental for DTLA Layover Removed
- 5991** Security maintenance services moved from the Customer Service and Operations Budget
- 6100** New expenses for Covina Transit Center

FY2020 Accomplishments

Completed construction of the Covina Transit Center and Park & Ride Project

Completed construction of the underground infrastructure and overhead canopy of 13 electric bus chargers at the Arcadia Irwindale Operations & Maintenance Facility

Completed construction on Site 1 of the Downtown Los Angeles Layover site

Completed detailed design and submitted plans for permitting for the Mt. SAC Transit Center.

Received Conditional Use Permit (CUP) from the City of Walnut

Completed utility roof replacement at the Arcadia Irwindale Operations & Maintenance Facility

Completed the removal of in-ground lifts at the Pomona and Arcadia Irwindale Maintenance Facilities and installed new protective floor coating

FY2021 Initiatives

Complete construction of the Restroom Compliance Modernization at the Administrative Building

Complete renovation of three offices in the Administrative Office Building

Complete permitting and receive approval of the West Covina Bus Shelter replacement project on Vincent Avenue

Assist the City of West Covina through the construction process

Begin concept and detail design for remodel of the Pomona Transit Store

Update the Facilities Transit Asset Management Plan for the Arcadia Irwindale and Pomona Operations & Maintenance Facilities

Begin environmental studies and preliminary engineering of Site 2 of the Downtown Los Angeles Layover Site

Submit approved DSA plans to the City of Walnut for street improvement work and sewer connection for the Mt. SAC Transit Center

Begin Phase One of construction of the Mt. SAC Transit Center

August 28, 2020

To: Governing Board

Subject: **COVID-19 Transit Operations Update**

Recommendation

Receive and file an update on Foothill Transit operations during the COVID-19 pandemic and Los Angeles County Safer-At-Home order.

Analysis

The Governing Board was provided an update on Foothill Transit Operations in response to the COVID-19 pandemic at the May 29, June 26, and July 24 2020 meetings. The updates have provided an overview of the actions taken at Foothill Transit in response to the pandemic and the state and local orders to control the spread of the pandemic from March 4, 2020, when Governor Gavin Newsom proclaimed a State of Emergency. This report will provide the most recent actions that have been taken.

On March 23, 2020, Express Services, and service on Line 690 (linking the Azusa Gold Line station to cities to the east during peak hours only), and Lines 851, 853, and 854 that primarily serve middle and high schools was suspended in light of the health emergency and the “Safer-At-Home” Executive Order, which resulted in school and non-essential workplace closures. This had reduced service levels by approximately 20 percent. We continued to operate other Local and Silver Streak service in an effort to provide critical lifeline transit services while encouraging social distancing onboard the transit coaches.

On June 8, 2020 Express Service was restored following the phased reopening guidelines provided by LA County, bringing on-street service to 99 percent of pre-COVID-19 pandemic levels. Service on Lines 851, 853, and 854 remained suspended. Additionally, the El Monte and Puente Hills Mall Transit Stores reopened to walk-in traffic.

Governor Newsom, Los Angeles Mayor Eric Garcetti, and L.A. County Supervisor Kathryn Barger all issued revised Health Orders on Monday, July 13 that require the closure of offices in non-critical sectors, as well as closure of places of worship, personal care services, and indoor malls in an effort to slow the increased spread of the virus since Phase 3 reopening.

Ridership and Service Levels:

Average weekday ridership is relatively flat at approximately 61 percent of the ridership levels in the months prior to the Safer-At-Home Executive Order compared to July ridership. Since the full restoration of the Express Service, ridership on those lines has remained flat at less than 650 passengers per day which is 81 percent below the ridership levels on these lines prior to the pandemic. That ridership had been slowly increasing in the days leading up to the most recent health order update on July 13.

The Southern California Association of Governments (SCAG) issued a report this month entitled “Snapshot of COVID-19 Transportation Impacts in the SCAG Region.” One of the areas of focus for this report is the impacts on transit ridership experienced by the transit operators in the SCAG region. Please note that of all the operators in the region, Foothill Transit had the lowest drop in ridership during the months of April and May. May was the last month analyzed in the report. The August 2020 SCAG study entitled “Snapshot of COVID-19 Transportation Impacts in the SCAG Region” is included as Attachment A.

The Foothill Transit Planning team is finalizing the route and schedule adjustments for the Fall service change which is scheduled for Sunday, October 18. Service levels will continue to represent approximately 99 percent of the pre-COVID-19 levels by operating all of the Express Service and all local lines but those lines that primarily service middle and high schools.

Operator Barriers:

The installation of permanent operator safety and security barriers on the Foothill Transit buses that do not currently have them installed is currently underway. Team members from the Maintenance and Vehicle Technology Department are finalizing the detailed installation schematics for each bus type to be installed. They are also working with the maintenance and operations teams at each of the operating facilities to prepare for the logistics of taking buses out of service for them to be installed with the barriers while maintaining the adequate buses to operate the service.

The first barriers are scheduled to be delivered and installed in the next few days at the Arcadia/Irwindale Operations and Maintenance Facility. From that point, weekly shipments and installations will continue including transitioning the installation activities to the Pomona Operations and Maintenance Facility until project completion which is slated for October.

Resumption of Fare Collection:

In anticipation of the permanent operator barriers being installed in the buses, the resumption of fare collection has been scheduled for Sunday, October 18. This is also the date of the Foothill Transit service change which customers are accustomed to changes being implemented and communicated in advance of the changes. It is anticipated that the majority of the Foothill Transit fleet will be installed with the barriers by this date. Customers who board buses that have barriers installed, will board at the front doors, allowing for them to interact with the farebox while maintaining a safe environment for the operators.

Onboard Safety & Security:

Foothill Transit, along with agencies across the country have been challenged with addressing the evolving safety and security concerns on board transit vehicles. Over the years, reported incidences of operator assaults and disruptive customers have increased. These are being tracked and addressed through the use of protective equipment, such as the operator barriers, legislation to effectively prosecute the perpetrators when there is an assault, and operator training and agency policies to discourage the disruptive behavior and assaults.

While fare enforcement has been suspended as part of the COVID-19 Operations plan, other agencies have reported similar experiences as Foothill Transit has of an increase in boardings by people who may be experiencing homelessness using the buses for shelter and riding without a destination. In light of the target loads put in place to support COVID-19 Social Distancing requirements, these boardings significantly reduce and sometimes eliminate available seating for persons needing to use the service for essential trips.

The relationships we have developed with law enforcement and social service agencies have been valuable in helping us identify strategies that can be deployed to address this national social issue and advance the agency's mission of providing safe public transportation. We anticipate that the resumption of fare enforcement will significantly reduce the number of instances of persons riding without a destination.

Customer Communication Activities:

The Marketing and Communications team remains at the forefront of keeping Foothill Transit customers and the community informed of service impacts,

agency initiatives, and health advisories. In addition to daily service advisories, communications campaigns focused on revised bus boarding practices, social distancing efforts, utilizing service for essential trips, face coverings, and overall health practices have been developed and are disseminated through a variety of communications methods.

On board and building signage is being maintained and replaced as needed to ensure that all visitors and customers are practicing physical distancing and wearing face coverings before boarding or entering buildings. New detailed pandemic protocol signage has been developed according to Los Angeles County Department of Public Health guidelines and has been installed at all publicly accessible building sites.

With school starting and all campuses converting to distance learning for the fall semester, Class Pass campaigns have been adjusted to focus on safe riding protocols and maintaining the public trust. School websites have Foothill Transit information readily available via vibrant, clickable graphics that direct students to foothilltransit.org/classpass where they can find information customized for each campus we serve.

Quality, customized, and safety tested face masks have been distributed to all bus operators, front line teams, customer service representatives, and administrative team members. These masks, made from recycled materials by ChicoBag Company in Chico, CA, were selected for their PFE Rating of 72% at 0.3 Microns (same as surgical masks), all-day use comfort, durability, and branding flexibility. Four designs were produced featuring logos and Foothill transit specific art. We're currently collecting front line feedback for any future production.

Customer surveys have been deployed to gauge customer sentiment regarding perceived safety and communications efficacy on board buses. Analysis of those surveys will inform the direction of future messaging as we enter the fall and winter months.

The core digital repository of all Foothill Transit pandemic response information resides at foothilltransit.org/covid. From there, one can navigate to the agency's infection tracking database, sharable graphics for download, and pandemic related service alerts

Transit Store Operations:

The Customer Service Representatives have continued to provide Foothill Transit customers with service, routing, and payment information through the decentralized call center since the Transit Stores closed to walk-in traffic on March 23, 2020. In preparation for the resumption of fare enforcement, a Transit Stores reopening plan is being developed. It will address which stores can be reopened to walk-in traffic, and any need for modified store hours, to support those customers who will need an in-person option to purchase their fare media. The Foothill Transit and Transdev Facilities teams have completed a number of projects that will facilitate the safe reopening of each of the four Transit Stores. These include sneeze guards at the transaction counters, floor markings to designate customer waiting/standing areas, hand-sanitizer dispensers, etc.

Sincerely,

LaShawn King Gillespie
Director of Customer Service and Operations

Felicia Friesema
Director of Marketing and Communications

Doran J. Barnes
Executive Director

SNAPSHOT OF COVID-19 TRANSPORTATION IMPACTS IN THE SCAG REGION

INTRODUCTION

The public response to the novel coronavirus (COVID-19) pandemic and the subsequent national, state, county, and local mandatory stay-at-home orders has significantly impacted transportation demand globally, nationally, regionally, and locally. As the largest metropolitan planning organization in the nation, the Southern California Association of Governments (SCAG) is at the forefront of transportation planning and analysis. In order to facilitate regional planning and public awareness, SCAG prepared this document to highlight impacts of the COVID-19 pandemic on transportation activities to date.

The analysis includes passenger, freight/cargo, and vehicle movement on the region's highways, roads, rail, and transit systems. The short-term impacts of COVID-19 on the SCAG region's transportation system include the following:

HIGHLIGHTS

- Vehicle miles traveled (VMT) on the region's arterial and highway network declined by nearly 80 percent in early April (using January 2020 as benchmark). VMT on the freeway network alone dropped by nearly 50 percent in early April over prior year. VMT began increasing again by mid-April. Total VMT is now nearing pre-pandemic levels.
- Bus ridership is down, falling 71 percent overall in April 2020 compared to April 2019, as a result of the stay-at-home-orders and as operators reduced vehicle capacity and implemented rear-door boarding to facilitate social distancing. Ridership recovered somewhat in May, but was still down 67 percent when comparing 2020 to 2019. The effects of the stay-at-home orders and social distancing measures were similar on the Metro Rail and Metrolink systems.
- Data on bicycle and pedestrian movements are limited. Trips taken on Los Angeles Metro's bike share system, however, also began to drop in March, and by June were down by 39 percent over the prior year.
- Global and domestic air travel declined by over 60 percent from March to April 2020.
- Aviation passenger demand in the region has decreased by more than 90 percent overall from last year.
- Aircraft operations have declined at a lower rate (60 percent) than passenger demand (90 percent) from the previous year.
- Air cargo has been impacted, but not to the same magnitude as air passenger activity.
- Freight has been mixed with performance down as low as 90 percent for specific sectors, but signs of improvement have surfaced.

I. VEHICLE MILES TRAVELED

VMT Decreased Sharply in Early April, Now Nearing Pre-Pandemic Levels

Following the stay-at-home orders issued in March, vehicle miles traveled (VMT) decreased to its lowest point in early April by nearly 80 percent in the SCAG region with more significant declines in Los Angeles, Orange, and Ventura counties. The figure also shows that for each of the six counties in the SCAG region, VMT began increasing again by mid-April, reflecting the gradual re-opening of some public spaces and businesses.

FIGURE 1 Percent Change in 7-Day Moving Average VMT by County (using January 2020 as benchmark)

Source: Streetlight Data

Snapshot of COVID-19 Transportation Impacts in the SCAG Region

VMT declines are much more substantial using Streetlight data encompassing both the freeway and arterial network, suggesting greater reductions in VMT on the arterial network versus the freeway network covered by Caltrans Performance Measurement System (PeMS) data. Truck VMT using PeMS data follows similar patterns of reduction with the lowest drop nearing 30 percent in early April and a gradual rebound by mid-April.

PeMS May 2020 average total freeway VMT was 36 percent below last year. June 2020 VMT was just 12 percent below 2019. Since the low point seen in the week ending on April 11, 2020, VMT has been growing around 2.9 percent per week on average. Truck VMT through the first week of July was only 6 percent below last year. Through the first week of July, VMT using Streetlight data also reflects continued growth at 34 percent below the January 2020 benchmark.

FIGURE 2 SCAG Region Percent Change in VMT from Benchmark by Week/Month (2019-2020)

II. TRANSIT AND PASSENGER RAIL

A. TRANSIT

Transit Ridership Has Declined Significantly in the SCAG region

Transit ridership has declined significantly with initial drops in March, more dramatic losses in April, and some recovery in May. Overall bus ridership fell by over 71 percent in April 2020 compared to April 2019, and by 66.5 percent in May 2020 compared to May 2019.

TABLE 1 Year-Over-Year Monthly Bus Ridership Change (2019 vs. 2020)

	JAN	FEB	MAR	APR	MAY
Anaheim Transportation Network	-1.7%	8.8%	-52.5%	-79.4%	-81.9%
Antelope Valley Transit Authority	4.5%	9.4%	-39.5%	-77.3%	-72.2%
Beach Cities Transit (City of Redondo Beach)	9.9%	14.1%	-43.9%	-85.2%	-81.0%
City of Commerce Municipal Buslines	-0.2%	-24.2%	-55.4%	-89.7%	-84.1%
City of Glendale	0.2%	7.8%	-47.4%	-85.6%	-84.0%
City of Los Angeles Department of Transportation	-13.1%	-40.7%	-53.8%	-79.8%	-76.8%
City of Pasadena	15.0%	18.0%	-27.5%	-67.2%	-64.9%
Culver City Municipal Bus Lines	-7.6%	1.3%	-40.6%	-75.8%	-72.0%
Foothill Transit	2.6%	7.5%	-39.7%	-62.1%	-53.4%
Gold Coast Transit	10.8%	13.2%	-30.6%	-65.9%	-59.7%
City of Gardena Transportation Department	5.0%	11.8%	-45.3%	-70.7%	-69.0%
Imperial County Transportation Commission	-0.6%	-4.2%	-37.1%	-77.2%	-76.8%
Long Beach Transit	7.6%	10.3%	-33.7%	-86.6%	-82.7%
Los Angeles County Metro	3.4%	4.2%	-35.0%	-68.6%	-62.6%
Montebello Bus Lines	4.7%	6.4%	-36.9%	-77.1%	-76.5%
Norwalk Transit System	10.8%	13.2%	-33.7%	-77.7%	-71.0%
Omnitrans	3.7%	7.0%	-29.1%	-64.8%	-58.1%
Orange County Transportation Authority	5.1%	8.7%	-33.9%	-76.2%	-75.0%
Riverside Transit Agency	4.5%	9.3%	-33.5%	-72.6%	-66.4%

Table continues on next page

 (<https://www.transit.dot.gov/ntd/data-product/monthly-module-adjusted-data-release>)

Orange and Imperial Counties Experienced the Steepest Decline in Bus Ridership

Summarizing the data by county shows Imperial and Orange Counties with the steepest decline in bus ridership of 77 percent in April. This pattern held steady in May, while the other counties experienced some recovery.

FIGURE 3 Year-Over-Year Bus Ridership Change, Summarized by County (2019 vs. 2020)

Source: SCAG Analysis of National Transit Database monthly module adjusted database

B. LOS ANGELES METRO

Ridership Declined in March and April, Recovered Slightly in May

Two out of every three transit riders in the SCAG region are carried by Los Angeles Metro Bus or Rail service. Los Angeles Metro reported its bus system ridership declined 68.6 percent and rail ridership declined 67.9 percent, year-over-year, April 2020 versus April 2019. Ridership fared a little better in May, dropping by about 63 percent for both bus and rail when comparing 2020 versus 2019 (Note: Comparisons with 2019 are impacted by the Los Angeles Metro Blue Line closures).

FIGURE 4 LA Metro System Bus and Rail Ridership Year-Over-Year Percent Change (2019 vs. 2020)

Source: LA Metro (<http://isotp.metro.net/MetroRidership/Index.aspx>)

C. METROLINK COMMUTER RAIL

Metrolink Experienced Nearly 90 percent Ridership Decline

Metrolink experienced record ridership levels in fiscal year 2018-2019, carrying close to 12 million riders. This was in contrast to nearly every other major transit provider in the SCAG region. Metrolink’s success was especially notable given that 85 percent of Metrolink riders own a car. Unfortunately, this trend was reversed due to the pandemic and the mandatory stay-at-home orders. Metrolink experienced a steep drop in ridership, losing about 90 percent of its ridership in April and May, when comparing 2020 to 2019.

FIGURE 5 Metrolink Ridership Year-Over-Year Change (2019 vs. 2020)

Source: Metrolink

III. AVIATION

A. AIR PASSENGER TRAFFIC

Air Passenger Demand Down Globally, Nationally, and in the SCAG Region

Air passenger activity throughout the World, United States, and within the SCAG region, has been significantly impacted by the COVID-19 pandemic. Global air traffic was down 65 percent from March 2020 (15,012 flights) to April 2020 (5,275 flights).

Global Air Traffic from March 7, 2020 to April 7, 2020

MARCH 7, 2020

APRIL 7, 2020

Source: [flightradar24.com](https://www.flightradar24.com)

Similar to global air traffic, flights in North America have declined considerably. Air traffic in the United States was down 65 percent as well from March (8,400 flights) to April (2,950 flights)

North American Air Traffic from March 7, 2020 to April 7, 2020

MARCH 7, 2020

APRIL 7, 2020

Source: [flightradar24.com](https://www.flightradar24.com)

Snapshot of COVID-19 Transportation Impacts in the SCAG Region

Air passenger demand in the SCAG region was not immune to the impacts of the COVID-19 pandemic. The decline in regional air passenger demand mirrors global and national trends. Air passenger traffic has declined significantly in the months following the COVID-19 outbreak. In comparison to last year, air passenger traffic was down almost 60 percent in March and 96 percent in April.

FIGURE 6 Total SCAG Region Airport Passengers (2019 vs 2020)

TABLE 2 Total SCAG Region Airport Passengers (2019 vs 2020)

2019 vs 2020	JAN	FEB	MAR	APR
Total Passengers	0.81%	-4.90%	-57.49%	-96.08%
Air Cargo (Tons)	-3.07%	-3.34%	-3.67%	-0.37%
Total Aircraft Operations	1.40%	3.64%	-22.29%	-60.76%

Source: Airport monthly activity reports and Federal Aviation Administration (FAA) Air Traffic Activity Data System (ATADS)

Snapshot of COVID-19 Transportation Impacts in the SCAG Region

The impact of the COVID-19 pandemic has been consistent across the commercial airports throughout the SCAG Region. In comparison to January 2019, air passenger demand in the SCAG region was down over 80 percent following the March 2020 stay-at-home orders.

FIGURE 7 SCAG Region Air Passenger Percent Change from January 2019 (Jan 2019 to April 2020)

Source: Airport monthly activity reports

B. AIRCRAFT OPERATIONS

Aircraft Operations Down, but Not at Same Level as Passenger Demand

While air passenger demand has seen the greatest decreases, aircraft operations have not been affected to the same extent, most likely due to airlines operating at lower load factors. Although aircraft operations have not decreased at the same rate as passenger demand, operations have experienced significant decreases. Overall, aircraft operations were down 61 percent in the SCAG region from April 2019 to April 2020. At SCAG region commercial airports, aircraft operations were down anywhere between 30-70 percent in comparison to January 2019.

FIGURE 8 Total SCAG Region Aircraft Operations (2019 vs 2020)

Source: Airport monthly activity reports and Federal Aviation Administration (FAA) Air Traffic Activity Data System (ATADS)

IV. FREIGHT INDICATORS

Freight Has Not Been Immune to COVID-19 Impacts

Freight industries have not been immune from volatility caused by the COVID-19 pandemic. Freight performance has witnessed substantial effects from other areas over the past three years leading up to the COVID-19 pandemic. This has included beneficial factors such as historically low unemployment through the early part of 2020 and increasing real gross domestic product (GDP) from 2016, reaching a peak in the second quarter of 2018. Concurrently, international trade has been highly volatile due to the Trump administration's foreign trade policies, most notably tariff actions against China, Europe, and Mexico, as well as other trade agreement dynamics.

The pandemic has also had varying impacts on different freight modes and components of supply chains. Domestic air freight has actually benefited from the surge in e-commerce based deliveries. Trucking witnessed an initial spike in demand during the month of March driven by consumers rushing to purchase essential goods, and has since seen levels decline to a low-point in April, with a gradual recovery through early June. International trade modes have all witnessed varying impacts, most notably from China's lockdown in the early part of the year leading to significant declines through March.

A. AIR FREIGHT AND MAIL CARGO

Recent impacts on air freight has been mixed, primarily relating to domestic versus international performance. Domestic air freight has been much more correlated with household consumer deliveries of essential items and the exponential increase in e-commerce online orders and deliveries. Domestic freight has played an important role in the supply chain during the COVID-19 pandemic.

FIGURE 10 Los Angeles & Ontario Airports Percent Change in Freight Tons by Month (2019-2020)

Source: SCAG Analysis

Snapshot of COVID-19 Transportation Impacts in the SCAG Region

For mail tons, the impact of the pandemic during March and April was much less severe versus international maritime shipments and other freight modes.

FIGURE 11 Los Angeles & Ontario Airports Percent Change in Mail Tons by Month (2019-2020)

Source: SCAG Analysis

B. SHIPPING TRENDS BY SAN PEDRO BAY PORTS AND ALAMEDA CORRIDOR

Trends for the shipping of twenty-foot equivalent units (TEU) through the San Pedro Bay Ports and Alameda Corridor have been in decline since Fall 2019, compared to performance highs in 2018. For 2020, declines have accelerated with March being the low point, primarily driven by China’s earlier lockdown of its economy beginning in late January through early April. May has displayed a modest decline, while loaded exports have dropped to a new low. Trade value has mirrored this performance.

FIGURE 12 SPBPs & Alameda Corridor Percent Change in TEUs by Month (2019-2020)

Source: SCAG Analysis

C. CLASS I RAIL OPERATOR PERFORMANCE

Class I rail volumes for intermodal and automotive declined greatly through April, although upward trends have begun to surface.

- Railroads may be benefiting somewhat from e-commerce dynamics for trailers on flat cars.
- Intermodal containers, which include international marine and domestic containers, have improved since March.
- The annual rate of total vehicle sales has been on a steady decline. This has accelerated to a 90 percent drop from last year during April/May. A strong upward recovery has begun through mid-June.

FIGURE 13 BNSF & Union Pacific Percent Change in Containers/Trailers/Motor Veh. & Equip. by Week (2019-2020)

Source: SCAG Analysis

D. BORDER TRUCK CROSSINGS AND TRADE VALUE

Cross-border trade value and truck activity has witnessed a substantial decline as a result of the COVID-19 pandemic. Compared to seaport trade, the greatest impact occurred in April. This is likely due to the closer proximity of the manufacturing supply chain and consumer-driven trends more in line with U.S. domestic patterns. The drop in northbound trucks was not as severe, however, suggesting higher value of goods transported.

Subject: **August 2020 Legislative Summary**

Recommendations

Receive and file the August 2020 Legislative Summary.

Analysis

Foothill Transit's federal advocate, Jan Powell will be participating in the Governing Board meeting to provide an up to the minute update on activities in Washington, D.C. A summary of federal and state legislation and corresponding status is attached.

Federal Issues:

On August 6, the Senate joined the House of Representatives in leaving town for their summer recess even though unemployment benefits and other Coronavirus relief measures expired on July 31. Funding requested by the transit industry to help offset the financial impact of the pandemic is caught between the different approaches of the Democrat controlled House and the Republican controlled Senate.

The Transit Industry has been calling for an additional \$32 billion in aid (in addition to the \$25 billion aid package transit agencies received in the CARES Act). A relief package introduced on July 27 in the Senate, the HEALS (Health, Economic Assistance, Liability Protection and Schools) Act, includes a second round of stimulus checks at the same \$1,200 amount as in the CARES act, along with a "sequel" to the Paycheck Protection Program to mitigate layoffs. It also includes increased funding for schools, higher learning institutions, and hospitals. The HEALS Act would fund supplemental unemployment benefits at \$200 dollars per week, a reduction compared to the CARES Act's benefit of \$600 per week. The bill provides no transit funding.

The relief package passed by the House in May, the HEROES (Health and Economic Recovery Omnibus Emergency Solutions) Act, is a stimulus package totaling approximately \$3 trillion. The legislation included \$15.75 billion for the transit industry and would be split into a \$11.75 billion bucket for urbanized area formula funds for transit entities serving populations of more than three million that would be distributed using Fiscal Year 2020 formulas

and \$4 billion in grants. That bill is now stalled in the Senate. Transit advocates do have time to continue to press their case.

On July 31, the House adopted H.R. 7617, a “minibus” FY2021 spending package covering the Department of Transportation and several other agencies. The bill would boost transit formula funding by 50 percent, and amendments were approved on the floor to boost funding for zero- and low-emissions buses and to transfer \$2 million from the Department of Transportation’s Office of Assistant Secretary for Administration’s budget to the transit grant program.

The Administration has threatened to veto this spending measure, citing an “overly restrictive” mask wearing mandate for planes, trains, and buses. The Administration also cited “excessive” funding levels for the DOT, the Highway Trust Fund, Amtrak, and the Essential Air Service. The path forward on FY2021 appropriations is unclear since the Senate has not yet unveiled any of its 12 spending bills, nor has that chamber announced plans for committee consideration of the bills. With the new fiscal year beginning October 1, it is likely that Congress will have to pass a continuing resolution in September to avoid a government shutdown.

Like Appropriations bills, many think that transportation reauthorization is destined for an extension, with political disagreements unlikely to be resolved by the end of September when the FAST Act expires. The House passed its own surface legislation, H.R.2, The Invest in America Act, which includes robust levels of transit funding. However, the Senate has advanced only the highway portion of the bill. Given Senate opposition to a massive Highway Trust Fund bailout and several other aspects of the House transportation legislation, it is likely that surface transportation reauthorization will be punted beyond the November elections for the next Congress to deal with.

State Issues:

On August 4, a diverse coalition of more than 30 labor, social justice, disability rights, environmental, transportation, and business leaders submitted a letter to Congressional leaders and California’s Congressional delegation requesting at least \$3.1 billion in emergency funding for California’s transit agencies to help prevent devastating service reductions. This diverse show of support is crucial to efforts to secure emergency funding for many California transit agencies as part of a larger emergency federal funding package that includes new funding for transit agencies nationwide. These agencies are most at risk

in the short term because they rely very heavily on farebox revenues for the majority of their financial needs. Fortunately, the CARES Act provided enough financial support to cover farebox and sales tax revenue as well as Coronavirus related costs to maintain service during the pandemic over the course of the next fiscal year for a number of agencies including Foothill Transit.

August 31 is the last day for the Legislature to pass bills. The Governor will then have until September 30 to sign or veto those bills sent to him.

Sincerely,

David Reyno
Director of Government Relations

Doran J. Barnes
Executive Director

2020 Legislation Summary

Current as of 8/12/2020

(Amendments and Bills with updated status or requesting action are indicated in **bold**)

Bill No.	Author	Analysis	Potential Impacts	Location	Outside Agency Positions	Recommended Position
AB 315	Garcia	This bill would prohibit trade associations, comprised of public agency members and established for the expressed purpose of lobbying, from expending public dollars for purposes beyond lobbying the State Legislature or United States Congress or on strictly educational activities. This bill would further prohibit associations from incurring any travel-related expense except as may be necessary for the association to hold an annual conference or other gathering of its members. This bill's proposed limitations on the use of public dollars is a majority of the California Transit Association's (CTA) operating budget.	The bill would undermine core functions the Association's members, which includes Foothill Transit, have come to expect. In particular, this bill would undermine their ability to: engage in litigation against the state/federal government; lobby the California Air Resources Board (CARB), California Public Utilities Commission (CPUC) and Governor's Office; form workgroups or task forces for external or internal policy development; conduct their iTransit campaign; and, manage their finances.	Died in Assembly Committee on Local Government	CTA - Oppose	Oppose Position Adopted 8/23/2019
AB 784	Mullin	Would exempt zero-emission transit buses from the state portion of the sales tax until January 1, 2024. The high upfront cost of zero-emission transit buses (ZEBs) and supporting infrastructure as well as budget constraints continues to be a challenge for transit agencies throughout the state as they begin compliance with the California Air Resources Board (CARB) December adoption of their Innovative Clean Transit regulation.	This bill will provide cost savings to agencies in California including Foothill Transit. Assuming average costs of \$775,000 for a battery-electric bus, this bill would save Foothill Transit approximately \$35,000 in state tax savings per bus for this technology.	Signed by the Governor and Chaptered and Effective 10/9/2019	CTA - Support	Support Position Adopted 4/26/2019

2020 Legislation Summary

Current as of 8/12/2020

(Amendments and Bills with updated status or requesting action are indicated in **bold**)

Bill No.	Author	Analysis	Potential Impacts	Location	Outside Agency Positions	Recommended Position
AB 1568	McCarty	<p>Would attempt to increase housing production by requiring local governments to meet specified housing production targets before receiving the funding for city streets and county roads enacted by SB 1 - The Road Repair and Accountability Act of 2017.</p>	<p>Foothill Transit is a member of the Fix Our Roads Coalition that united transportation, business, and labor organizations from across the state to advocate to enact SB 1. The Coalition was successful protecting the bill from being used for general fund purposes through passage of Proposition 69, and a referendum to overturn it by defeating Proposition 6.</p> <p>This bill would withhold transportation funding for streets, roads, or public transit. This goes against the will of the voters who have repeatedly and overwhelmingly dedicated transportation funds for local transportation improvements and transit needs.</p>	Died in Assembly Committee on Appropriations	CTA - Oppose	Oppose Position Adopted 4/26/2019

2020 Legislation Summary

Current as of 8/12/2020

(Amendments and Bills with updated status or requesting action are indicated in **bold**)

Bill No.	Author	Analysis	Potential Impacts	Location	Outside Agency Positions	Recommended Position
H.R. 2	DeFazio	<p>The United States House of Representatives passed H.R. 2, the Moving Forward Act, a \$1.5 trillion plan to rebuild all aspects of America's infrastructure. The bill, which subsumes the "Investing in a New Vision for the Environment and Surface Transportation (INVEST) in America Act", authorizes surface transportation programs for five years with a total investment of \$494 billion, including \$319 billion for highways, \$105 billion for public transportation, and \$60 billion for commuter rail, Amtrak, and other high-performance passenger rail. Included in the \$105 billion for public transportation is \$5.8 billion in supplemental funding in Fiscal Year 2021 to address the immediate funding needs of transit agencies grappling with the financial and operational impacts of the COVID-19 pandemic.</p> <p>While H.R. 2 started out as the five-year, \$494 billion bill reauthorizing the federal highway, mass transit, highway and motor carrier safety, and railroad programs that expire on September 30 of this year, the Democratic leadership added another trillion dollars of other provisions, \$130 billion for public school infrastructure, \$100 billion for public housing, another \$100 billion for broadband Internet development, and several hundred billion more for things like clean water grants, safe drinking water programs, electrical grid infrastructure, health care infrastructure, next generation 911, and new vehicles for the Postal Service.</p>	<p>ZERO EMISSION BUS GRANTS Provides \$1.7 billion for FY22 through FY25 and an average annual increase of 500 percent over FAST Act funding. Sets procurement minimums to ensure transit agencies are investing appropriately in zero emission bus fleets and the necessary charging infrastructure. To qualify for these funds, a transit authority would need to procure at least 10 zero emission buses (or if the agency operates less than 50 buses in peak periods, the procurement would have to be for at least 5 ZEBs).</p> <p>FLEXIBILITY IN THE CHARTER SERVICE RULE Provides transit agencies more flexibility to meet community needs with limited exemptions to the charter service rule. More clarification will be forthcoming on this when we see report language, but those exemptions in the statutory language of the bill appear to include operating a fixed route service that is (1) for a period of less than 30 days (2) accessible to the public and (3) contracted by a local government entity that provides local cost share.</p>	U.S. Senate	APTA - Support	Support

Bill No.	Author	Analysis	Potential Impacts	Location	Outside Agency Positions	Recommended Position
			Allows funds obligated in FY21 to be up to a 100% federal share.			
HR 1139	Napolitano/ Katko	<p>The Bus Operator and Pedestrian Protection Act, authored by Congress Members Grace Napolitano (D, CA) and John Katko (R, NY) will provide much needed safety improvements to bus operations in order to address the rising concern of assaults on bus drivers and avoidable accidents due to blind spots on buses. The bill requires transit agencies to develop Bus Operations Safety Risk Reduction Programs to improve safety by reducing the number of bus accidents due to blind spots, preventing assaults on bus drivers, and improving bus driver seating to reduce ergonomic injuries. It gives transit agencies two years to create these programs in partnership with their transit workforce, and with oversight from the U.S. Department of Transportation (DOT). The bill authorizes \$25 million/year for 5 years to pay for the implementation of these programs.</p> <p>Transit agencies will be required to implement the following safety improvements as a part of</p>	While this bill has some areas of concern including its driver barrier, ergonomic and retrofit provisions without adequate federal funding to assist transit agencies in order to comply as well as its one size fits all approach, its intent to improve overall safety for our operators and customers is what is most important. The authors understand the transit industry concerns and has expressed willingness to work with us to find appropriate solutions.	Subcommittee on Highways and Transit		Support Position Adopted 3/29/2019

Bill No.	Author	Analysis	Potential Impacts	Location	Outside Agency Positions	Recommended Position
		<p>their Bus Operations Safety Risk Reduction program:</p> <ul style="list-style-type: none"> • Assault mitigation infrastructure and technology, including barriers to prevent assault on bus drivers. • De-escalation training for bus drivers. • Modified bus specifications and retrofits to reduce visibility impairments. • Driver assistance technology that reduces accidents. • Installation of bus driver seating to reduce ergonomic injuries. <p>The bill will also require transit agencies to report all assaults on bus drivers to the U.S. DOT's National Transit Database (NTD).</p>				
HR 2164	Brownley	<p>The Green Bus Act would take the state policy to the federal level by increasing funding to improve green bus technology and help deploy it nationwide, increasing funding to ensure that transit agencies have the resources necessary to purchase and deploy zero-emission bus fleets and requiring all buses purchased with federal funds be zero-emission, starting Oct. 1, 2029. Specifically, the law will increase funds for the Federal Transit Administration's Low or No Emission Vehicle Component Assessment Program from \$3 million to \$5 million, annually. It will also increase funds for the FTA's Transit Cooperative Research Program (TCRP) from \$5 million to \$20 million, annually, which will prompt more federal research on ways to reduce emissions and develop and deploy zero-emission technology nationwide.</p>	<p>This bill will support Foothill Transit's Electric Bus Program by providing more opportunities for funding our buses and charging infrastructure. The increased research funding at the national level could lead to future cost savings for all transit agencies.</p>	Subcommittee on Highways and Transit		Support Positon Adopted 6/28/2019
