Notice: Notice is hereby given that Mt. San Antonio College (Mt. SAC) has completed an Initial Study of a proposed Mt. SAC Transit Center in accordance with the California Environmental Quality Act (CEQA) Guidelines. The Initial Study was undertaken for deciding whether the project may have a significant effect on the environment. Based on such Initial Study, Mt. SAC's staff has concluded that the project will not have a significant effect on the environment and has therefore prepared a Negative Declaration. The Initial Study and Negative Declaration reflect the independent judgment of Mt. SAC.

Project Location/Description: The Project site is located on an approximate 1.8-acre parcel on the Mt. SAC campus, north of Temple Avenue and west of Bonita Avenue in the city of Walnut, California. The proposed Transit Center project involves the development of four project elements, including the Transit Center, Temple Avenue Improvements, Bollard Hardscape Improvements, and Driveway Expansion and Pedestrian Circulation Area. The project site is fully developed with parking and circulation uses related to the Mt. SAC campus, including a surface parking lot, driveways, and Temple Avenue, an existing 4-lane primary circulation route.
